The copy filmed here has been reproduced thanks to the generosity of:

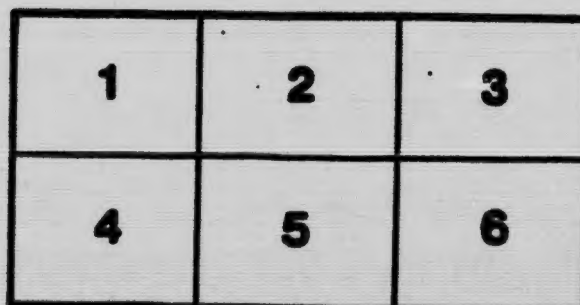

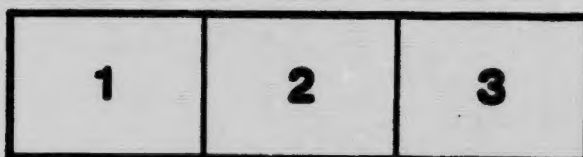

Library of the National
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

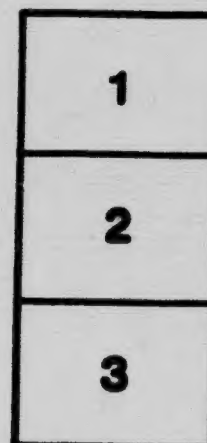

La bibliothèque des Archives
nationales du Canada

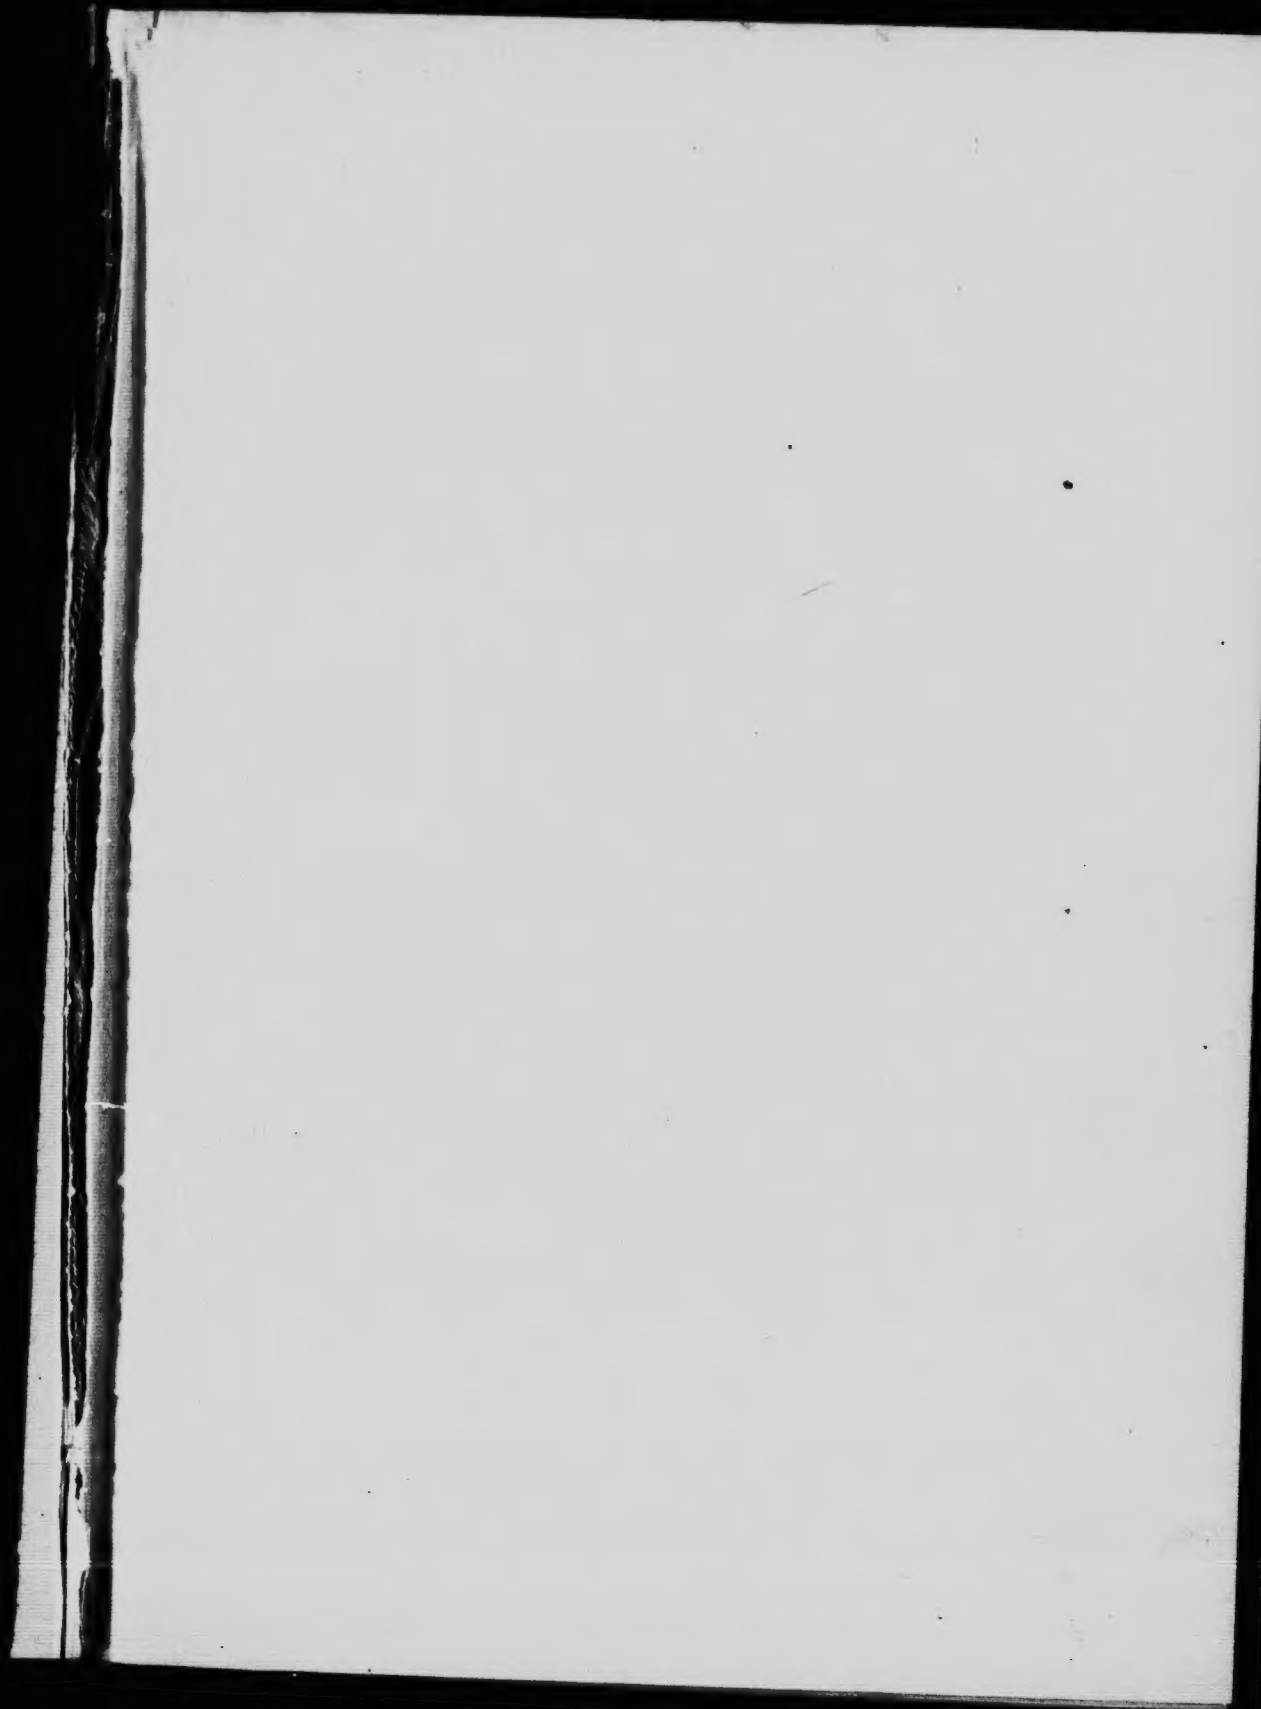

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

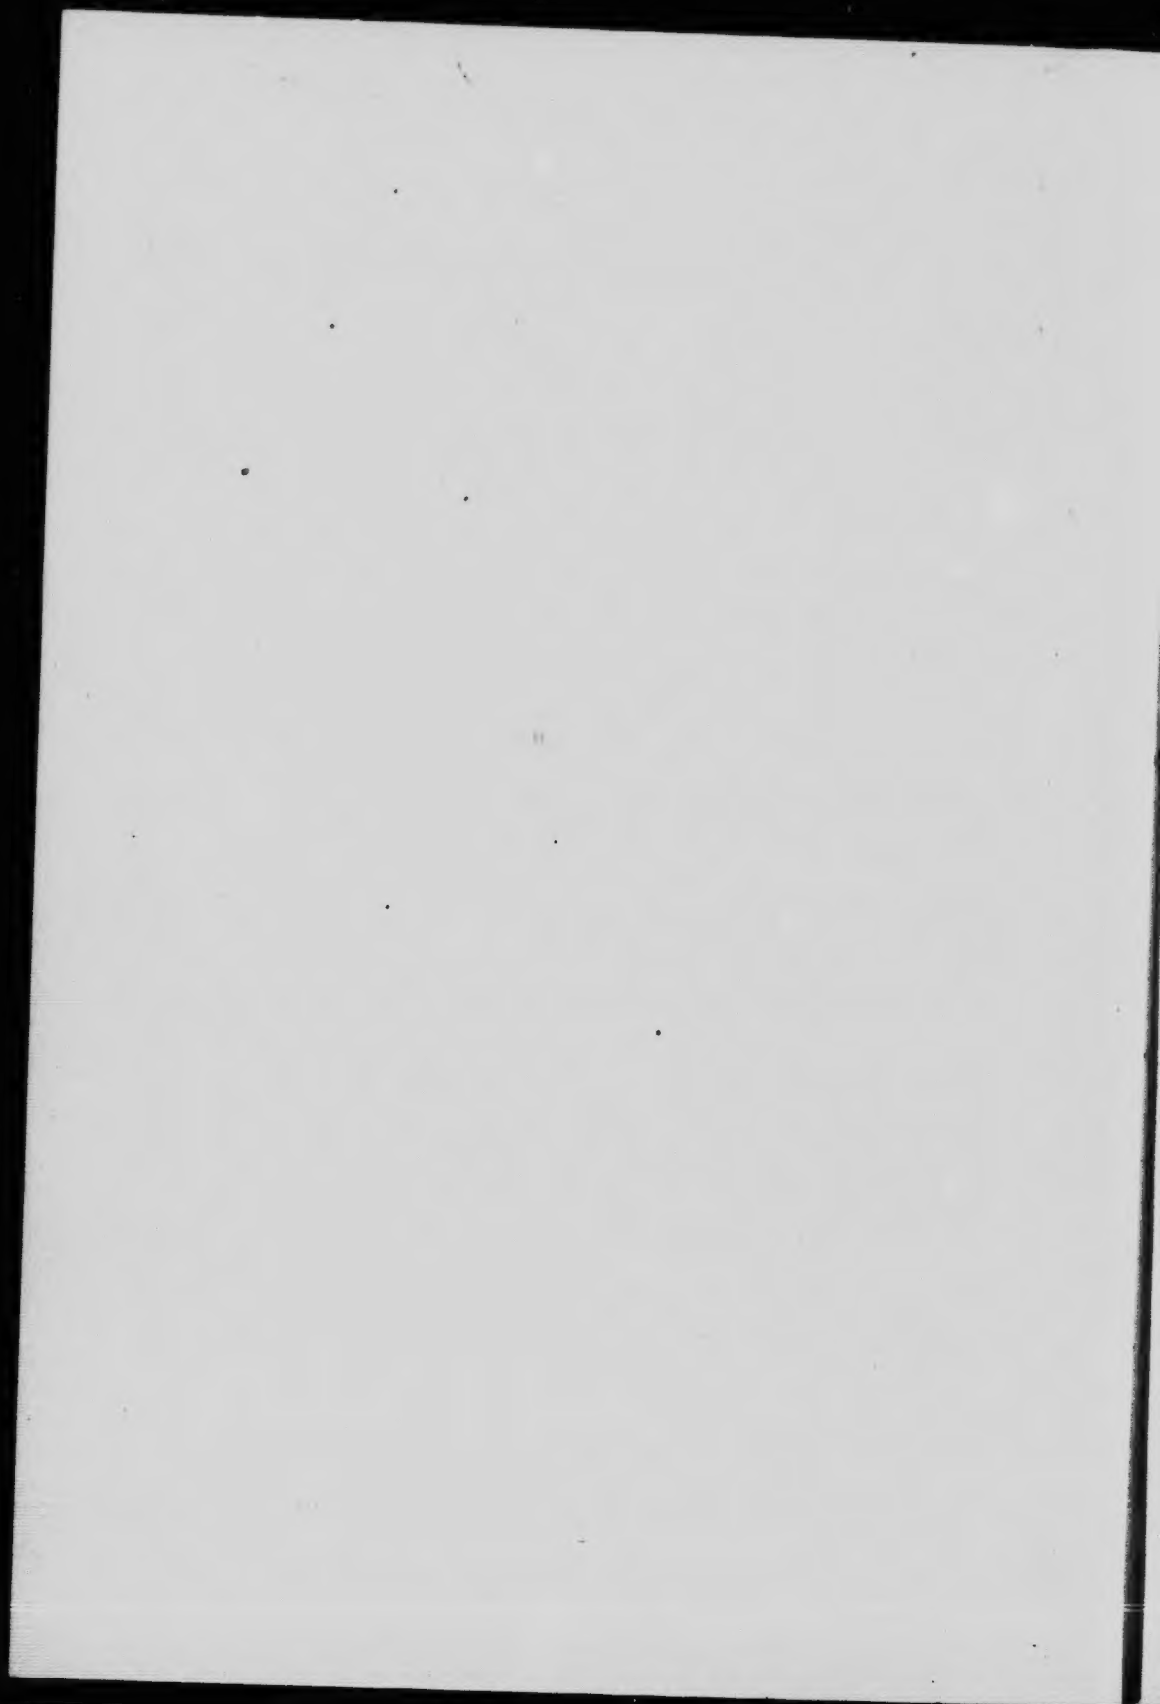

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE UNIVERSITY OF CHICAGO PRESS

CANADIAN PACIFIC RAILWAY COMPANY'S TELEGRAPH EXECUTIVE OFFICE.

Montreal, January 1st, 1913.

INSTRUCTIONS.

I. This book is for the use and guidance of the officers and employees of the Canadian Pacific Railway Company's Telegraph. It contains a complete list of the Telegraph Offices of the Canadian Pacific Railway Company and its connections, up to December 1st, 1912, together with the names of many places for which telegrams may be accepted for delivery by mail or telephone, or otherwise, from the nearest telegraph office. Additions, changes and corrections will be issued in "Tariff Circulars" every alternate month beginning with February.

II.—THIS LINE STATIONS.

Stations of the Canadian Pacific Railway Co.'s Telegraph are known as "This Line" Stations, and are indicated by the letters C. P. placed before the name.

"This Line" stations will "CHECK DIRECT" with each other, unless otherwise instructed, as for example, C. P. Parkdale, check Toronto.

Some offices ignore instructions to "CHECK DIRECT" on business with certain places listed in the Tariff Book as "tariff same as Philadelphia, check direct," and incorrectly credit and check such business with Philadelphia. This also applies to the checking of places whose rates are the same as to Baltimore and other places, and which should be "checked direct." Offices are instructed to check such places correctly.

III.—CONNECTING LINE STATIONS.

With the stations of companies named in this group, business will be checked direct.

Indication.	Company.
CN	Canadian Northern Railway Co.
N	North American Telegraph Co. of Canada
TN	Temiskaming & Northern Ontario Railway Co.
P	Postal Telegraph-Cable Co.
CU	Commercial Union Telegraph Co.
MP	Michigan Postal Telegraph Co.
NA	North American Telegraph Co. (United States).
PM	Pacific and Pacific Mutual Telegraph Co.
PP	Pacific Postal Telegraph-Cable Co.
R	Rocky Mountain Telegraph Co.
TP	Postal Telegraph Cable Co. of Texas.
NE	El Paso and North Eastern Railway Co.
SW	El Paso and South Western Railway.
PN	New York, Philadelphia and Norfolk Telegraph Co.
PRR	Pennsylvania Railroad Co.
NX	Northern Telegraph Co.
SO	Minneapolis, St. Paul and Sault Ste. Marie Railway Co.
TT	Tonapah and Tidewater Railway.
SN	Southern Nevada Consolidated Telephone & Telegraph Co.
SI	Spokane and Inland Empire Railway Co.
WN	Idaho and Washington Northern Railroad.
MK	Mackay Telegraph & Cable Co.

In addition to the letter placed before "this" and "connecting" Line stations, there will be found, following the names of office, a number denoting the square in which the station is located, except where square rates do not apply to business with C. P. offices.

IV.—"OTHER LINE" STATIONS.

a.—Stations on "other (telegraph) lines" are indicated by a star (*) placed before the name.

b.—Following the name of each "other line" station will be found the "other line" rate from a "this" or "connecting line" station, which rate should be added to the rate to the station where the transfer to "other lines" is made.

c.—Telegrams to and from an "other line" station, shown in Tariff Book or Circulars, should be checked with the station indicated therein, as also by the instructions contained in the check of received telegrams from such "other line" stations. In the absence of instructions, CHECK DIRECT.

V.—TELEPHONE STATIONS.

a.—Stations on telephone lines are indicated by three stars (***) placed before the name.

b.—The rate to "telephone" stations, and also to "special delivery" points, is found in the same way as that to "other line" stations, and the manner of checking is the same.

c.—When *, ** or *** offices are listed as "same rate as to square...." competing offices having no square rate, will use State rate.

VI.—OTHER LINE *via* AND DIVIDED CHECK.

a.—Whenever the place of transfer for a telegram destined to an "other line," "telephone," or "special delivery" point, is shown in the Tariff Book or Circulars, it should be inserted in the check and transmitted.

b.—In every prepaid telegram destined to, or collect telegram received from such an "other line" station, the amount of tolls should be divided to show first, the amount for "this," followed by the amount for "other lines."

VII.—MISCELLANEOUS.

ACCEPTANCE OF BUSINESS FOR PLACES REACHED BY COMPANIES OTHER THAN CANADIAN PACIFIC OR ITS CONNECTIONS.

a.—Telegrams may be accepted for all offices on other companies' lines in the Dominion of Canada, provided that this Company's portion, after "pay out" to other lines has been made, is not less than 25 and 1. The through tolls are the same as by the competing Company. All such business for Manitoba, will be sent *via* and checked with Winnipeg; for Ontario and Quebec, will be sent *via* and checked with Montreal or Toronto; full rate messages for New Brunswick or Nova Scotia will be sent *via* and checked with St. John, N.B. Night rate or lettergrams (on which full day rate for other lines must be collected) will be sent *via* and checked with Montreal, unless otherwise instructed in Tariff Book. Non-competing offices will collect "Other Line" tolls in addition to "This Line" rate. The check will be divided to show the amount paid to "Other Lines."

b.—When telegrams are accepted at competing points to be transferred to the G. N. W. or W. U. at Montreal, Toronto, Winnipeg, etc., the extra words in the date must be counted. When, however, the telegrams originate at a non-competing point, there are no extra words in the date to be counted.

c.—All offices may accept prepaid messages for all exclusive Western Union points in the United States, but, instead of turning this business over to the G. N. W. or Western Union at points of origin, such messages will be forwarded over C.P.R. lines to Montreal, Toronto, Winnipeg or Vancouver (as most convenient) for transfer. Collect local tolls to point of transfer in addition to W.U. tolls from point of transfer to destination.

Exceptions:—

Messages for W.U. offices in Maine to be routed via Calais.

Messages for W.U. offices in Vermont to be routed via Newport.

The through rate from competing points on this business will be the same as the Western Union rate. The full amount of tolls to be entered in Column "A" and checked as "this line" business. Transferring offices will report the amount of pay-out and the differences will be straightened out in the Audit Office.

This Western Union business for points in the United States must be entered on a SEPARATE CHECK REPORT, and the total of that check report credited in the summary of the check report as Western Union OTHER LINES, and offices paying out to the Western Union must make a SEPARATE paid other line statement, taking credit for same and make no entry whatever in the check report, either a "this" or "other" line check, against the originating office.

If offices do not adhere strictly to these instructions, it will cause great inconvenience, and a large number of error sheet differences.

Messages for exclusive Western Union points from Western Lines should be routed via Winnipeg, Vancouver or Fernie, when the through rate is lower than when routed via Postal offices. In such cases check with transfer point on the regular check report.

On messages, whether from competing points or otherwise, transferred to us by the W. U. Tel. Co., charge for the extra words in date, except when transferred at regular transfer points indicated herein. For example, should the W. U. Tel. Co. transfer a message from some point in N.B. or N.S. to us at St. John, N.B., for some point in the West, there would be no extra words charged for because St. John is the normal transfer point for business with C.P.R. Offices, but should such a message be transferred at Winnipeg, Man.; Fernie, B.C., or other western points, extra words in the date will be charged for. The G.N.W. Telegraph Co. is exempt from the operation of this instruction as regards non-competitive business from points in Ontario and Quebec.

d.—TELEGRAMS (but not Cablegrams) MAY BE ACCEPTED COLLECT from passengers on Can. Pac. Railway trains.

e.—Rates to points not given in this book, will be furnished by wire from the chief office of the district. Offices accepting telegrams for points where rates are higher than State rates, will be held accountable for the full tolls.

f.—Night or collect telegrams may be accepted for telegraph points not reached by this Company or its connections, provided the transfer point is in Canada.

PLACES REACHED BY TELEPHONE AT WHICH WESTERN UNION ALSO HAS AN OFFICE.

g.—When a telegram, dated at a place reached by Western Union lines and not by Postal, is tendered to this Company by telephone, the connecting "this line" office will compute and account for the tolls on such telegram at the Western Union rate from originating point, and not at the rate from connecting point.

When a telegram is accepted for such a place, the charge will be the Western Union rate to destination, and not that to the connecting point.

TELEGRAMS TO BE DROPPED IN POST OFFICE.

h.—When a telegram is to be forwarded by mail to reach destination, no charge will be made for postage at the originating office, nor any record in "other line" account at office where such telegram is mailed, unless the cost exceeds the ordinary rate for postage.

POST OFFICE ADDRESS.

k.—Particular attention is called to the necessity of properly addressing correspondence for telegraph offices at which there is no post office. After the name of such places the post office is given. (See "Pawcett, Mo., P. O. Willow Brook," etc.). Correspondence should be indorsed, for example:

Postal Telegraph-Cable Co.,

Delta,

P. O. Bayles, Calif.

The failure to observe this requirement may cause the correspondence to go astray. Neglect to add the name of county given after the name of a station may have the same effect.

Telegrams containing the words "POST OFFICE" in the address, or which are directed to be mailed, should not be dropped into a street letter box, nor given to a letter carrier; but should be promptly mailed at the nearest post office, so as to avoid delay between telegraph offices and post offices.

CARDS AUTHORIZING THE ACCEPTANCE OF COLLECT TELEGRAMS.

i.—Cards, authorizing the acceptance of "Collect" telegrams, addressed to parties whose names will be filled in on such cards, may be had on application to the Division Superintendents.

Managers will accept and forward "collect" without guarantee or deposit, telegrams offered by the holders of such cards. In every case such messages must be signed and addressed in accordance with instructions on the cards, and receivers will note upon all such messages the number of the card and the Division from which it has been issued.

VIII.—DAY AND NIGHT BASIS.

To and from all points, the basis is ten (10) words, unless otherwise specially instructed.

NIGHT LETTERGRAMS.

Night Lettergrams may be accepted for all check direct offices in Canada and the United States, for special delivery points, for all one star offices in Canada not otherwise indicated and for wireless and telephone offices where indicated in the list of stations.

The charge for night lettergrams of fifty words or less will be the regular day rate for ten words, and one-fifth ($\frac{1}{5}$) of this rate will be charged for each additional ten words or less. Minimum rate is 25 cents for 50 words.

Night lettergrams accepted for one, two and three star stations in the United States and Canada will be charged for at night lettergram rate for "this line," and unless otherwise instructed, full ten word day rate for "other lines."

Night lettergrams must be written in plain English. Code or cipher is not permitted.

Exception.—They may be accepted in plain French when destined to C. P. offices only.

Night lettergrams will be written for delivery on special night lettergram blanks. "N.I." will be written, transmitted and copied in the check in each and every case. They may be accepted either prepaid or collect under the usual regulations, and will be taken at the counter or by telephone or collected on call at any time of the day up to midnight, but, as in the case of other night business, will not be put on the wires until night, and when the wires are clear of full paid day business. They must not be accepted after the regular hour for closing, and held until the following morning. Night lettergrams will be delivered as early as convenient the next morning.

Night lettergrams may, at the option of the Telegraph Company, be mailed at destination to the addressee, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such night lettergram at destination, postage prepaid.

The instructions that night lettergrams must be written in "plain English language" do not disqualify words of an artificial character representing trade names or terms, trade designations of cotton shipments, brands or grades of flour, and other manufactured products. Trade names and trade designations should be accepted without question, *provided they are used in their natural sense*, and are not used to convey a hidden meaning as code or cipher words do.

For example, the expression "Uneeda" is the name of a product of a biscuit company. "XXX" is used to express a certain brand or grade of flour. "FHC," "AFC," "HLPH," represent cotton shippers' brands.

Delivery Clerks will scrutinize lettergrams as well as other traffic and in all cases where replies are called for, the messenger should be specially instructed to make proper effort to secure them.

Some offices have accepted night lettergrams for exclusive Western Union offices. This practice must be stopped. Offices accepting night lettergrams for exclusive Western Union offices will be held responsible for the tolls between the originating point and point of transfer, and in addition thereto the full payout from point of transfer to the exclusive Western Union point of destination.

This prohibition is necessary in view of the fact that night lettergrams are refused at night lettergram rates should they fail to reach transfer point before midnight.

*Night lettergrams must not be accepted for *** points shown in the Tariff Book with notation "Tariff same as square—."*

NIGHT MESSAGES.

"Night" messages may be accepted for all check direct offices, in accordance with Rule 14, at the rates given on page 48.

"Other" line offices to or from which night messages may be accepted are designated by letters "N.M.," which follow the rate for "other" lines.

Night messages to one, two or three star stations may be accepted at night message rates for "this" line, and full rate, or night message rate if there be any, for "other" line.

IX.—TARIFFS.

ORDINARY RATE.

a.—The tariffs of this Company are arranged under the designations of Square Rates, State Rates and Special Rates.

b.—State Rates are shown on pages 37 to 40 of this book; Square and Special Rates are shown by special instructions addressed to the offices to which they apply. (See pages 41 to 47.)

c.—To ascertain the rate to a place to which no Special rate has been given, note the number, if any, after the station, then refer to the Square and State Rate. In case of difference between Square and State Rate, the lower rate will be used.

d.—If no Square Rate be given, use State Rate.

APPLICATIONS FOR BULLETIN SERVICE OR SPORTING NEWS, ETC.

e.—All applications for bulletin service of sporting news of any character must be referred by managers to their Superintendent for instruction.

MARKET SUMMARIES ("GOSSIP") RATE.

f.—Market summaries, after close of Exchange, containing not less than 75 words, may be accepted at one-half the Day rate for additional words, for one delivery. Additional copies may be delivered at one-fourth the Day rate for additional words.

QUOTATION OR C. N. D. SERVICE

The following are rates for all Commercial News, Stock Reports, etc., furnished by this Company and do not apply to such quotations filed by an individual or firm to their own correspondents. Use C.N.D. count.

BETWEEN	Rate per Week.	Num- ber Words.	Each Add'l Word.
Offices in N.B. and N.S.	\$2.50	250	$\frac{1}{2}$ c.
Offices in N.B. and N.S., and Offices in Secs. 1, 2 & 3.	5.00	500	1 c.
Offices in Secs. 1, 2 and 3.	2.50	250	$\frac{1}{2}$ c.
Offices in Sec. 4, and all Offices east thereof.	7.50	500	1 $\frac{1}{2}$ c.
British Col. and all Offices east of Sec. 4.	10.00	300	4 c.
Manitoba (Chicago, Minneapolis or other U.S. points) and Offices in Sec. 1.	5.00	250	1 c.

C.N.D. rates with T.N. offices \$2.50 per week for 250 words or less, more than rate with Section 1 Ontario.

Rates for all other kinds of "Commercial News," quotations and reports under regular forms of contract will be furnished from the Superintendent's office when required.

The following will show the manner of counting C. N. D. reports:

First.—Five figures to be counted as one word.

Second.—Each letter or fractional sign used in connection with figures to be counted as a figure.

Third.—Common words to be counted in the usual way.

Fourth.—Add together all the figures, letters and fractional signs contained in the message and divide the sum by five to obtain the number of such words, and to this add the number of ordinary words, if any. For example:

C15 c13 d10 rml 123 162 $\frac{1}{2}$ 68 $\frac{1}{2}$ m19 Market lower.

Twenty-nine characters, consisting of letters, figures and fractional signs, each counted as one, divided by 5 produces 6 words, to which add 2 ordinary words, making 8 words in all.

Messages of this nature, containing "Code" or "Cipher" words, will be counted and charged for at full Commercial rate.

BULLETINE OF SPORTING EVENTS.

Agents will not furnish, post or sell any bulletins of Election returns, baseball games, yacht races, prize fights, or other sporting news, without special authority from their Superintendent.

The rates for bulletins of football, lacrosse games and all other sporting events of a similar nature, will be 25c. each for the first four bulletins and 15c. for all bulletins after the first four. These rates to apply only to bulletins exchanged between offices east of Port Arthur or between offices west of Port Arthur.

Rates on bulletins between offices west of Port Arthur and offices east of Port Arthur will be furnished on application.

MARINE SERVICE.

This Company is prepared to report the arrival of steamers to firms and individuals. The charge for this service will be one dollar in addition to the tolls on a 10-word message.

Orders for this service should be addressed to Traffic Department, 4 Hospital St., Montreal.

The total receipts for this service will be credited in monthly office report, under heading "Marine Service."

X.—FREE BUSINESS.

Franks are of three classes, viz.:

Business

Complimentary (stamps).

Half Rate.

THE BUSINESS FRANK entitles the holder to send telegrams and receive answers thereto of a strictly business nature (and the nature of the business is usually stated thereon), and does not cover telegrams of a family, social, personal or political character.

THE COMPLIMENTARY STAMPS are designed to cover only the personal or social telegrams of the holder, and are not intended to be used for business or political communications.

They are not intended to be used by, nor for any other than the person to whom they are issued.

A stamp must be affixed to every telegram containing twenty words or less, not including address, date or signature, and an additional stamp for every additional twenty words or fraction thereof. Answers may be franked by affixing the necessary stamps as above.

Inconvenience is occasionally caused the holders of Complimentary Franks, by the Receivers requiring the Book of Franks to be sent to them for inspection. This is particularly inconvenient when the telegram is sent to the office by our own messenger.

Telegrams with the requisite number of stamps affixed, will be accepted by Receivers without requiring the Book of Franks to be shown them.

If stamps are believed to be improperly used, report the facts to Superintendent.

When a telegram destined to a station on the lines of the Postal Telegraph Co., or other connections is offered under a frank (or stamp), it will not be accepted for free transmission, either wholly or in part, unless the frank is countersigned by an official of the Connecting Company, or a frank of the Connecting Company is also presented, as the tariff from place where it leaves this line to destination is never less than from place of origin.

HALF-RATE FRANKS.

k.—Half-rate Franks issued by this Company, apply only to telegrams destined to stations of the Canadian Pacific Railway Co.'s Telegraph, indicated in the Tariff Book and Circulars by the letters C. P.

l.—Such telegrams, whether sent paid or received collect, will be checked and accounted for at full day tariff.

m.—After each day's business is recorded, such original sent telegrams and impressions of received collect telegrams will be withheld from the files for monthly account, and at the close of month, entered in Refunded and Uncollectible statement, itemized to show by whom sent, to whom and where sent, number of words and amount refunded on each.

n.—The amount refunded on each telegram, will be one-half the full tolls computed as above directed; provided, however, that not less than twenty (20) cents shall remain to this Company after such refund has been made.

TERRITORIAL LIMITS OF FRANKS.

o.—Franks issued by the Canadian Pacific Railway's Telegraph, are good only over its own lines to points indicated by the letters C. P.

p.—Franks issued by "connecting lines" are not good over "this line", unless countersigned by the Manager of Telegraphs of "this" Company.

To prevent confusion and unnecessary service correspondence, the reason for Free transmission should be transmitted in the check, as per example:

10 Dh Frank 22
10 Dh Employé
19 Dh Supt., etc.

and Managers and others are hereby instructed to enforce the observance of this regulation.

CHECKS OF COLLECT TELEGRAMS CLAIMED TO BE ENTITLED TO FREE TRANSMISSION NOT TO BE CHANGED.

When a "received collect" telegram is tendered to a frank holder and payment is refused under privilege, it will be delivered and reported in uncollectible account, without notice to the sending office.

Offices are strictly enjoined not to change the check nor make any request to that effect.

FREE TELEGRAMS—ANSWERS.

No telegram may be accepted "D.H." for the reason that it is "an answer to a 'D.H.' telegram received requiring an answer," but such replies may be accepted and forwarded Collect.

FREE TELEGRAMS (NOT ANSWERS) ADDRESSED TO FRANK HOLDERS.

Whenever a telegram addressed to a frank holder is offered for acceptance by a person not holding a free privilege recognized by this Company, prepayment of tolls or a guarantee will be required, as the addressee's privilege cannot be used to cover free transmission.

XIII.—RATES FOR NEWS REPORTS (SPECIALS).

The following rates apply to special reports in *plain English* for publication at *points addressed in one newspaper only*, but there is no objection to newspapers giving their specials to correspondents to forward to papers in other cities.

Special despatches in any foreign language should not be accepted at press rate, except where special arrangements have been made for their handling.

Matter addressed to newspapers written in *Cipher or Code*, must be charged for at FULL COMMERCIAL RATE.

Dispatches addressed to newspapers for publication, are entitled to press rates only when they are bona fide reading matter.

Advertisements sent to newspapers must be paid for at full commercial rates.

No special dispatch to a newspaper, or message referring thereto, except between Canadian offices, will be rated as containing less than ten words, and the charges on any such special, or message containing less than ten words, will be the same as for ten words.

The number of words must be placed in the check of each press query, and operators are to transmit a full copy same.

The word "collect" will be counted but not charged for, the same as in a commercial telegram.

RATES BETWEEN CANADIAN OFFICES AND UNITED STATES.

1.—Between Canadian Pacific stations in Ontario, Section 1, Quebec Section 1, New Brunswick, Nova Scotia, Maine, Vermont, Manitoba, Section 12, and all stations of "connecting" lines in the United States, east of and including Cheyenne, Wyo., Denver, Col., and El Paso, Tex., the rate per word for Special Reports will be

FOR DAY SPECIALS:

One-third of the additional word rate for Commercial Day Telegrams.

FOR NIGHT SPECIALS:

One-sixth of the additional word rate for Commercial Day Telegrams.

2.—Between all stations in Ontario, Sections 2, 3, and 4, Manitoba, Section 5, and west thereof, and all stations of "connecting" lines in the United States the rate per word for Special Press Reports will be

FOR DAY SPECIALS:

One-half of the additional word rate for Commercial Day Telegrams.

FOR NIGHT SPECIALS:

One-quarter of the additional word rate for Commercial Day Telegrams.

3.—Between all Canadian Pacific stations mentioned in paragraph 1, and all stations in United States west of and including Montana, the rate per word for Special Reports will be

FOR DAY SPECIALS:

One-half of the additional word rate for Commercial Day Telegrams.

FOR NIGHT SPECIALS:

One-quarter of the additional word rate for Commercial Day Telegrams.

4.—When reports originate at "other" line offices, the "other" line rate must be computed separately, and in addition to "this" or "connecting" line tolls.

Drop copies or duplications of special reports in transit, when arranged for, may be furnished to stations on the circuit or at destination. The charge for each of such copies or duplications will be one-half the rate for special reports when addressed to the station to be supplied, but no rate shall be less than one-half cent per word for day and one-fourth cent for night reports.

The rates summarized above, are for convenience arranged in following tables:

The minimum charge for any one despatch between offices in Canada is twenty-five cents, unless otherwise stated below.

From points in Section 1, joint despatches to two or more papers in ONE place, one-fifth cent per word day or night for each paper.

Exceptions:—

British Columbia:—Between offices in section 10, $\frac{1}{2}$ cent per word day or night.

To T. N. offices, including queries, 25 cents per 100 words (minimum charge 10 cents) more than to North Bay, Ont.

Between Manitoba and Ontario, Sec. 4, 1st c. day, $\frac{1}{2}$ c. night

Minimum charge for any one despatch between offices in Ontario and Quebec, and offices in New Brunswick and Nova Scotia, day or night to be thirty-five (35) cents. Press "queries" between same points, one-quarter ($\frac{1}{4}$) cent per word, with minimum of ten (10) cents for any one message.

Minimum charge for any one despatch between offices in Ontario and Quebec, to be twenty-five (25) cents. Press "queries" between the same points one-quarter ($\frac{1}{4}$) cent per word, with a minimum charge of ten (10) cents for any one message.

Windsor, Ont. and Detroit, Mich., $\frac{1}{2}$ cents per word day, $\frac{1}{2}$ cent night.

Ottawa to British Columbia, special rate of one (1) cent per word, day or night

Ottawa to Manitoba, during session of Dominion Parliament only, a special rate of three-quarters ($\frac{3}{4}$) of a cent day, or half ($\frac{1}{2}$) cent night. Ottawa to Toronto and Montreal, during session of Dominion Parliament only, twenty-five (25) cents day, or twenty (20) cents night, per hundred (100) words.

"Queries" must relate to newspaper despatches by telegraph to be entitled to press rates.

Press "queries" between offices on Western lines to be charged for at regular press rates with a minimum charge of ten (10) cents for any one message.

Press "queries" between offices in Ontario and Quebec, and offices in Manitoba, Alberta, Saskatchewan, and British Columbia, to be charged for at the regular press rate (day or night), but no such message to be rated as containing less than ten (10) words.

All specials (Canadian) sent from any one place to any one paper on the same day shall be counted and charged for as one special.

Day specials are those filed for transmission between 6 a.m. and 6 p.m.

Night specials are those filed for transmission between 6 p.m. and 6 a.m.

Press despatches to be forwarded at night press rates, may be filed at any time during the day, but will not be transmitted until after 6 p.m., except in cases where it may be more convenient or desirable for the Company to forward them earlier, and when such a despatch is forwarded before 6 p.m. the words "Night Special" should be transmitted in the check.

The check of such telegrams should always contain the words "Day" or "Night" Press Rate, as the case may be.

a.—News specials written in cipher or containing cipher or code words, though intended for publication, are not entitled to be sent at press rates, but should be charged for at the same rate as other business messages.

b.—Amount in figures in News reports should be counted according to the least number of words in which they can be expressed. Examples:

999	Three words....	(Nine ninety-nine.)
1,000	One word.....	(Thousand.)
23 $\frac{1}{2}$	Three words.....	(Twenty three half.)
15 $\frac{1}{2}$	Two words.....	(Fifteen half.)
9,961,000	Six words.....	(Nine million nine sixty one thousand.)
9,960,000	Five words.....	(Nine million nine sixty thousand.)

c.—Persons filing News reports for transmission, who are not known to be the authorized correspondents of the papers or associations their reports are addressed to, should be required to present proper authorization, prepay, or guarantee the payment of tolls on their reports before they are accepted.

d.—When impracticable to count the number of words contained in News specials before transmission, the number of words must be reported by service telegram as early as possible thereafter, the sending office being responsible for the count, but this does not in any way relieve the receiving office from careful counting and comparison.

All short specials should be counted prior to transmission whenever possible and the checks transmitted in the regular way.

e.—No employee of this Company will be permitted to act as agent or correspondent of any Newspaper or Press Association, except on extraordinary occasions, and then only by the direction or approval of his Superintendent.

f.—The filing time of press reports will not be transmitted unless placed in the body of a report by the sender, in which case it should be counted and charged for as part of the report.

CONDITIONS AND RATES FOR DISTRIBUTION OF NEWS SERVICE FROM PRESS ASSOCIATIONS.

Instead of scaling down for each additional paper, rates are quoted for three or more groups for each service. It is understood that if, under certain circumstances, it should be found that a less number of papers is producing a greater revenue to the Company than would be the case on the rate quoted for a greater number, the rate will be based on the amount of revenue from the higher number of papers divided equally among the papers actually taking the service. For instance, in District No. 4, 10 papers taking 30,000 words day report from District No. 2 at 5-36 cent per word would amount to \$416.70, whereas 12 papers at 1-16 cent per word for the same service would only amount to \$360.00, therefore the amount to be charged is \$360.00 divided between 10 papers or \$36 each.

The number of papers mentioned in each of the rates given must be located where they can be placed on one circuit. It is agreed that all papers at present in the territory between Port Arthur and the Rocky Mountains will be considered as on one circuit; and all papers at present in British Columbia on the lines of the Canadian Pacific Railway will be considered as on one circuit.

All papers located in Quebec and Ontario east of Detroit and Sudbury will be considered as on one circuit and all papers located in New Brunswick and Nova Scotia on one circuit.

The rates contained herein apply only to service from a Press Association addressed to two or more newspapers for publication in such newspapers, and do not apply to special despatches addressed to one newspaper whether filed by a Press Association or a special correspondent.

It must be a joint service which can be sent to the various newspapers simultaneously.

For distribution of news service, Canada is divided into the following Districts:—

No. 1—Nova Scotia and New Brunswick.

No. 2—Quebec and Ontario, east of Detroit, Mich., and Sudbury, including Sudbury.

No. 3—Sault Ste. Marie branch, and territory between Sudbury and Port Arthur, Ont.

No. 4—Ontario, west of, and including Port Arthur

No. 5—Manitoba.

No. 6—Saskatchewan.

No. 7—Alberta.

No. 8—British Columbia.

Any convenient place in each district may be taken for a distributing point.

XIV.—WIRELESS TELEGRAPH.

MARCONI WIRELESS TELEGRAPH SERVICE TO SHIPS AT SEA, ON THE GREAT LAKES AND ON THE ST. LAWRENCE RIVER.

Wireless telegraph messages may be accepted for trans-Atlantic, trans-Pacific steamships, for Coastwise Steamers, and for Steamers on the River St. Lawrence and the Great Lakes, equipped with wireless apparatus, at the following rates, through such wireless station as can reach the vessel designated. The conditions of acceptance are as follows:

1. All messages to ships' stations must be prepaid.
2. Messages will be counted and charged for as ordinary cable messages, the address must include the name of the addressee, the name of the steamer and the wireless station via which message is sent. No message is rated as containing less than ten words.
3. Employees may assist the customer without responsibility for correctness of information, in determining the proper wireless station through which message should be sent to reach ships' station.
A circular giving "List of proposed Sailings," to be issued monthly by the Marconi Wireless Company, will be furnished offices. This will assist the customer and counter clerk to determine the proper shore station.
4. Registered code addresses may be employed on messages for delivery on shore, but messages for delivery on board of steamships should have the Christian or given name and the surname; messages bearing surname only will be at the senders risk as to delivery. A proper form of address would be "Harold Jameson, Steamship Empress-of-Britain, Sable Island."
5. Messages originating at ships' station will show the name of the wireless station "via" which they are sent as well as the name of the ship, the date and the word "Radis" in the check. This information is not included in the count and is not charged for.
6. Wireless traffic under this system of charge will be accounted for in the usual manner. "This Line" tolls being shown in Column A, wireless or "other line" tolls in Column B. Messages with Newfoundland stations will be accounted for in a special cable report as heretofore.
7. Should message fail to reach the steamer addressed, the fact will be reported to office of origin, so that if the sender so orders, the message may be sent to another station. In such cases the amount collected for the message which failed may be refunded and proper tolls collected on any new message that may be sent.

All applications for refunds of full tolls not based upon reported non-delivery because vessel was out of reach, must be referred to the Superintendent as such refunds cannot be made without the consent of the Marconi Wireless Company. Prepaid replies cannot be arranged in connection with messages to or from Ships' Station.

DELIVERY AT QUARANTINE.

Telegrams for passengers to arrive at New York on incoming Steamers, detained at Quarantine, will be delivered on board the Steamer by messenger free of charge, if received at Quarantine prior to arrival of the Steamer.

CONCERNING MESSAGES FROM AMERICA TO STEAMSHIPS FITTED WITH WIRELESS APPARATUS APPROACHING THE BRITISH COAST.

Senders enquiring how messages may be sent and delivered on board steamships approaching British Coasts, should be informed that messages are, and may be addressed to the steamship, care of the Marconi Company at one of the shore stations. Example:

"Richardson, S. S. Cedric, Crookhaven," but we cannot accept any responsibility for their transmission or delivery aboard the ship.

In addition to the wireless station at Crookhaven, there are also stations at Lizard, North Foreland, Niton, Poldhu, Rosslare and Bolt Head.

The charges are the ordinary cable charges to Crookhaven, etc. The charges for the "wireless" transmission between Crookhaven, etc., and the ship, will be collected from the addressee.

SPECIAL INSTRUCTIONS REGARDING TRANSMISSION AND DELIVERY OF TELEGRAMS.

Employees are reminded that (first) **ACCURACY** and (second) **PROMPTNESS** in the transmission and delivery of telegrams, are the most effective weapons for maintaining and increasing the remarkable success thus far achieved by this Company.

Operators are warned to be extremely careful in recording message numbers, in counting messages, and in sending or receiving the following named words and figures:

1. All words and figures in **ADDRESS**.

Special care must be taken in transmitting Walford, Ont., and Watford, Ont.

2. In body: 'one,' 'on,' 'ten,' 'two,' 'three,' 'third,' 'thirty,' 'thirteen,' 'four,' 'for,' 'fourth,' 'forty,' 'fourteen,' 'five,' 'fifth,' 'fifty,' 'fifteen,' 'six,' 'sixth,' 'sixty,' 'sixteen,' 'seven,' 'seventh,' 'seventy,' 'seventeen,' 'eighth,' 'eighth,' 'eighty,' 'eighteen,' 'nine,' 'ninth,' 'ninety,' 'nineteen,' 'eleven,' 'twelve,' 'twenty,' **PARTICULARLY 'FIFTEEN,' and 'FIFTY,'** and 'TWENTY,' and 'SEVENTY' (AVOID timing messages while sending or receiving any of the foregoing numbers).

'Can,' 'can't,' 'cannot,' 'our,' 'own,' 'your,' 'poison,' 'person,' 'PROTECT,' 'PROTEST,' 'Tuesday,' 'Thursday,' 'with,' 'without,' 'affliction,' 'affection,' 'afforded,' 'affording,' 'absolute,' 'absolutely.'

Operators are warned against confounding the suffix **Th** with the figure 8, or vice versa, in transmitting or receiving numbers either in the addresses or the bodies of telegrams: for example, 4th street must not be rendered 48 street, or 48 be rendered 4th.

Guard against such errors as **AKRON** for **WARREN**, **NEWARK** for **NEW YORK**, **OWEGO** for **OSWEGO**, or vice versa.

Avoid timing telegrams while sending or receiving any of the foregoing numbers or words.

[Managers will please post copy of this warning upon bulletin boards.]

TALKING while sending or receiving is prohibited in the Company's service.

Receiving clerks should endeavor to see that the name of the State is written in full in the address of each message directed to any city of which there are more than one of the same name.

In all such messages directed to New York or New Jersey the name of the State must be carefully transmitted and copied in full. In all addresses operators must carefully transmit and copy the authorized abbreviation of the name of the State.

Particular attention is called to messages addressed to

Albany,	Greenville,	Salem,
Ashland,	Newark,	Springfield,
Augusta,	Portland,	Washington.
Hamilton,	Portsmouth,	

Managers, Receiving Clerks and Delivery Clerks, are especially cautioned to guard against:

1. Insufficient address for person addressed. (Obtain sender's address, when possible, for subsequent reference.)
2. Wrong checks.
3. Misdirecting envelopes. (Make every address plain and complete.)
4. Failure to examine messenger's delivery sheets and books. (Rule 60)
5. **FAILURE OF MESSENGERS TO LEAVE NOTICE** for person addressed (Form 17), when place is closed or there is no authorized person to receive telegrams.

In messages accepted for Greenville and Washington, N.C., the name of the state "North Carolina," and in messages for Greenville, S.C., the name of the state "South Carolina," should be written in the address in full, and sending operators will transmit, and receiving operators copy, the words North Carolina and South Carolina in full.

In all messages accepted for Portland, Maine; Portland, Michigan; Portland, Ontario, and Portland, Oregon, the name of the state should be written in the address in full, and sending operators will transmit and receiving operators copy the words Maine, Michigan, Ontario and Oregon in full.

The same precaution applies to Hamilton, Ont., and Hamilton, Ohio.

JAMES KENT, Manager Telegraphs.

To guard against error the following abbreviations for States and Provinces must be used. Receiving Clerks will enter same on all messages. Sending operators must transmit, and receiving operators must copy these abbreviations in each message.

EXCEPTIONS TO RATE SHEET

The rates on pages 37 to 40 are for points reached by this Company or its connections. For business to other points, *local rates* to points of transfer must be charged in addition to the rates from transfer point. Night or Collect business may be accepted for points not reached by this Company or its connections, provided the transfer point is in Canada.

The tariff between offices in Sections 1, 2 and 3, within a distance of 12 miles is 15 and 1.

The tariff between Government and C. P. Offices on Vancouver Island, British Columbia, is 25 and 2 divided 13 and 1, and 13 and 1, the company of origin taking the larger proportion.

A higher rate than 25 and 2 will not be charged between offices that are not more than 100 miles apart (by wire), no matter in what different sections they may be. This does not apply to offices east of Section 1.

or Ask divisional office for rates to points not given in tariff book.

These rates are not affected by bi-monthly circulars.

Press rates will be furnished from Local Superintendent's Office.

Check direct with G.T.P. offices, making out separate check report in duplicate under head of Group 10.

Offices at competing points must not accept business for points where G.T.P. has exclusive offices.

Night Lettergrams may be accepted for G.T.P. offices at full N.L. rates for each Company. The special tariff does not apply on this class of business. Lettergrams originating in Saskatchewan may be transferred to G.T.P. at Saskatoon. The rates are the same between G.T.P. offices as between C.P.R. offices in the same Sections.

FOR LIST OF TRANSFER OFFICES IN CANADA, SEE PAGE 765.

Money transfers may be accepted addressed to places printed in italics in the list of money transfer offices. These transfers will be paid at the regular money transfer office most convenient to the place named, as indicated in the list. If any of these places are shown as "check direct" offices, transfer agents must collect the tolls to such office, and not the tolls to the paying office. If the Tariff Book shows telephone or delivery charges for any of these places, transfer agents will collect of the sender such charges in addition to the regular tolls and commissions on a transfer to the paying office, and account for same on the money transfer report, in the same way as for other transfer charges. For example, a transfer may be accepted for Alexanderville, Ohio, to be paid at Dayton, Ohio. On such transfer sending office will collect 10 cents for telephone delivery besides the regular money transfer tolls and commissions.

RULES, RATES AND INSTRUCTIONS

TO BE OBSERVED IN DEALING WITH

CABLEGRAMS EXCHANGED WITH

THE COMMERCIAL, COMMERCIAL PACIFIC, COMMERCIAL OF CUBA, BRITISH PACIFIC (AUSTRALIAN,) DIRECT WEST INDIA, FRENCH, GERMAN-ATLANTIC, HALIFAX-BERMUDAS, AND UNITED STATES AND HAYTI CABLE COMPANIES.

CABLEGRAMS TO BE ON PROPER FORMS

The Canadian Pacific Railway Co.'s Telegraph will accept cablegrams for transmission only on the terms and conditions printed on the back of its regular cable sending forms.

Cablegrams written on any other paper whatsoever, when offered for transmission, must be pasted on the regular sending form before being forwarded, and any instructions, directions as to route, etc., which the sender may have to give must be written by him or his authorized agent.

The Telegraph Companies should assist each other to make deliveries of cables. If a cable cannot be delivered, the notice of non-delivery should state that the other Company does not know the address. Example: "Hever Ferdinand, Fla., undelivered, unknown to us or W U."

NOTE.—Cable business will be entered in the regular monthly Account Current under the heading "Cable Receipts." A distinct record of cable business will be kept and at the end of each month a report upon Cable Form, in accordance with the instructions printed thereon, will be promptly forwarded to the Auditor.

"Receiving operators must count cablegrams. Receiving operators must make sure that cablegrams have the numbers of separate words called for in the check. If the check is a whole number there should be that number of separate words. If the check is a fractional number, such as 23½, there should be twenty separate words in the message."

Managers and Chief Operators will call operators' attention directly to the above and where the rule is not observed take such action as will insure its observation.

RULE I.

Every cablegram must be prepaid by the sender unless it be a "prepaid reply," or unless otherwise specially ordered.

For other conditions under which cablegrams are accepted for transmission, see printed headings of the cablegram forms, which should be carefully read by the sender.

RULE II.

The word system of charging must be observed, and all words in the address, text and signature must be counted and charged for.

Each cablegram may contain any number of words at the option of the sender.

NOTE.—General attention is called to the miscounting in cablegrams of such words as *Rue* and *passy*. The French word *Rue*, meaning *Street*, must be counted separately, whether joined to another word or not. *Rue*, or *street*, combined with the name of the rue, or street, cannot be transmitted as single words.

RULE III.

No charge will be made for the transmission of the name of the "place from," which must be telegraphed in the check of the cablegram; nor will any charge be made for the transmission of the indication of any particular route; such as "via Eastern," "via Northern," "via Indo," "via Direct Spanish," etc., which indication must be telegraphed immediately after the address—that is, as a part of the address—and before the text or body of the cablegram.

RULE IV.

Every address* must consist of at least two words; the first indicating the name of the addressee, and the second, the name of the place to.

Attention is called to errors resulting from the use of registered cable addresses beginning with the prefix "TO" because of the practice in land line transmission of signalling the direction "TO." Every opportunity to cancel such addresses should be availed of, and no more addresses beginning with the letters "TO" should be registered.

In the address of any message the names of the delivery office, Counties, Provinces, States or other territorial subdivision and country, are each counted as one word, without regard to the number of letters required to spell them; other proper names in addresses or signatures are counted at the rate of one word for every fifteen letters or fraction thereof.

The sender is responsible for an incorrect or insufficient address. Corrections and alterations can only be made by a new cablegram, which must be paid for.

When a message is addressed to the care of a person who has a registered address, the words "care" or "care of," or the French form "chez" or their equivalent, must be written before the registered address; thus a message for "Barnett, London," to be delivered to the registered address "Morgan, London," should be addressed, "Barnett care (or "care of") Morgan, London," or "Barnett chez Morgan, London."

In case a cablegram be received with a doubtful or unregistered address, the place from should be serviced at once for better address. The practice of trying to deliver: first and then asking for better address should be changed. Ask for better address first, and unless there is some other way of identifying the true addressee wait for better address. The usual applications for assistance must be made to the other company.

A cablegram should not be displayed to any but the true addressee, therefore efforts to deliver a cablegram with a doubtful or unregistered address should only be made with the greatest caution.

NOTE.—*Service messages asking for repetitions of words in cablegrams must be answered at once from the original copy. Repeat the word or words questioned immediately*

Then, if there is any doubt as to the reading or the word or words, consult the sender and send a second service message correcting the misreading of copy, if any.

In case the sender of the cablegram wishes to make any change in the cablegram as first written after it has been transmitted, the change must be made by a paid service telegram, as per Rules IV. and XVI.

* Registration of a code or abbreviated address for use in Canada, Bermuda, Cuba, Jamaica or Great Britain will be made without charge; but registration for use abroad can only be effected by the foreign correspondent.

RULES, RATES AND INSTRUCTIONS.

*Following is a copy of a service message that was sent by one office on the line:
'Newcastle Tyne, per C.S.'*

*Sy cable A68 date Ch 25 words to Yestor, Tomscreech, party claims dont
understand 17th word Amauloss. Thinks might be Amauros, answer.*

(Sig.)....."

*Had the office sending the above service used the correct form, it would have
saved the transmission of a large number of unnecessary words. The correct form
for the above service would have been as follows:*

"Cense, N.S.,

Newcastle—185 Yestor Seventeenth Amauloss.

(Sig.)....."

RULE V

Cablegrams destined for places beyond the lines of telegraph must contain instructions as to the name of the place from which they are to be posted. Such instructions must be inserted as a part of the address and paid for.

Example:

Post. John Doran,

Ballycarodock,

Belfast

(Ballycarodock not being a telegraph station, the cablegram is forwarded from Belfast by mail.)

RULE VI.

The signature may be abbreviated or omitted, but the Cable Company declines to make any unpaid inquiries respecting it.

RULE VII.

Cablegrams may be written in plain language, code language, or cipher language, but they must be legibly written in characters which have their equivalents in the Morse alphabet.

RULE VIII.

Abbreviated and misspelled words, illegitimate compound words, or words combined in a manner contrary to the usage of a language are forbidden, but if they should accidentally appear in a cablegram, they will be counted and charged at the rate of one word for every five letters, or fraction thereof.

Words joined by a hyphen or separated by an apostrophe are counted as so many separate words.

RULE IX.

Plain language is that which offers an intelligible sense in one or several of the languages authorized for International telegraphic correspondence.

By cablegrams in plain language is understood those which are written entirely in plain language.

In cablegrams written entirely in plain language, the maximum length of a chargeable word is fixed at fifteen characters. Words of more than fifteen characters are charged at the rate of one word for every fifteen characters or fraction thereof.

Code telegrams may contain genuine or artificial words, but these words must not consist of more than ten characters. They must be formed of syllables capable of pronunciation according to the usage of one of the following languages: English, French, German, Italian, Dutch, Portuguese, Spanish or Latin. Combinations not formed of such syllables are regarded as letters having a secret meaning and are counted and charged as cipher. Combinations of two or more words of plain language contrary to the usage of the language are not admitted.

Each telegram may contain words taken from all the above mentioned sources.

In cablegrams written in plain language and code language, the maximum length of a chargeable word is fixed at ten characters.

Code words may not have more than ten letters. Code words of more than ten letters must be counted and charged at cipher rate, viz., five letters to the word, and mentioned in the check, but genuine words of more than ten letters may be used in their ordinary sense in a code message and be counted at the rate of ten letters to a word.

RULE X.

Cipher language is that which is formed of groups of figures or groups of letters having a secret meaning; or of words, names, expressions or combinations of letters not complying with the conditions of plain language or code language.

Count the figures in each uninterrupted series, at the rate of five, or fraction of five, as one word.

Groups of letters are charged at the same rate as groups of figures, but figures and letters must be counted and charged separately. Example: AEC counts three words.

In cablegrams written in plain language and cipher language the words in the passages in plain language are charged at the rate of one word for every fifteen characters or fraction thereof; and the groups in the passages in cipher language at the rate of one word for every five figures or fraction thereof.

In cablegrams written in plain language, code language and cipher language, the words in the passages in plain language and code language are charged as code language; and the passages in cipher language are charged as cipher language.

RULE XI.

Every *separate* figure, letter, initial or underline must be counted and charged for as one word.

Numbers expressed in words, written so that each number or group of numbers forms one continuous word, may be counted and charged for at the rate of ten or fifteen letters, or fraction of ten or fifteen letters to a word.

Signs of punctuation, hyphens and fresh paragraphs are not counted or sent.

Parentheses, the two signs thereof, are counted as one word. Inverted commas or quotation marks, the signs before and after a word or phrase, are counted together as one word.

When the letters ch come together in the spelling of a genuine word, they are counted as one letter. They are counted separately in artificial code words and in cipher expressions.

The words street, place, road, square and park are always to be counted each as one word separately from the name of the street, place, road, square and park whether written together or apart.

Roman numbers cannot be reproduced by telegraph, V, VII, XIX, etc. Senders should be requested to substitute arabic figures or words

† Telegraph instruments cannot reproduce such expressions as 30a, 15 x 6, etc. Senders must be asked to substitute for them the explicit meanings "30 exposant a," "15 multiplied by 6," etc

CODE AND CIPHER LANGUAGE.

Artificial words or groups of letters or trade-marks must not contain the accented letters ä, å, é, ñ, ö, ü.

In code words or trade-marks the letters ae, aa, ao, oe, ue are to be counted as two letters each.

Codes may be submitted to certain telegraph administrations designated for the purpose of obtaining an assurance that the words contained in them are in accordance with the Regulations.

The Administration designated so far are the British, French and German. In cipher language the mixing of letters and figures in one group is not admitted.

Combinations or alterations of words concealed by reversing the order of the letters or syllables are not admitted.

RULE XII.

The sender of a cablegram may prepay a reply of any number of words but the number of words must be specified.

The letters RP stand for REPLY PAID. The letters RP and the number of words prepaid, must be inserted in parentheses before the address of the cablegram, as a part of the address and must be charged for, thus: (RP 16). The letters and figures should be counted together as one word. They indicate that a reply of sixteen words has been prepaid.

Example: (RP 16) SOLWAY, London. Cable full account of shipment by Manitoba.

This message contains ten words. The charge to be collected is ten words for the cablegram and sixteen for the reply, total twenty-six words, which should be shown in the check as 10 paid, RP 16.

The charge for the cablegram and the prepaid reply must be collected at the same time. The charge for the prepaid reply cannot be allowed to stand over until the reply is received.

When an answer to an RP is accepted, enter after the check in such answer the word: "Anstorp" (meaning: answer to RP message).

When an answer to an RP cablegram contains a greater number of words than the RP calls for, the sender of the answer must pay for the excess at the regular word rate. The check of the answer in question will contain the actual number of words followed by the words, "Anstorp expd," (meaning: answer to RP message excess paid). For example: an answer containing eight words to RP message calling for five words, will be checked "8 Anstorp expd."

On transferring an RP cablegram to a Foreign Telegraph Administration, the Cable Company pays over the amount prepaid for the reply, and with delivery of the cablegram an order, which is good for six weeks, is handed to the addressee, entitling him to send a reply within the limits of the prepaid amount, to any part of the world.

The order reads as follows:

"This order is good for six weeks from date of issue. It"
 "is accepted in every office for the payment of a telegram"
 "to any address or destination whatever. The value of"
 "the order can only be refunded to the depositor, provid-"
 "ing the holder of the order returns it to the office he re-"
 "ceives it from with an application for refund within a"
 "period of three months."

It is, therefore, important that in case the sender wishes to prepay an answer it should be clearly explained to him:

1st. That the rules governing this business are not made by the Cable Company, but by the governments by whom all Foreign Telegraph systems are operated, and the Cable Company has no choice but to accept and enforce them.

2nd. That the tolls paid for a reply is not a deposit, but practically a remittance by the sender to the correspondent, who may expend it to pay for any telegram.

3rd. That if the correspondent does not reply at all the order must be returned to the office it was issued from within three months, or the money cannot be recovered.

No refund of an unused R.P. shall be made without the authority of the Auditor of Telegraph Receipts.

Upon the receipt of a cablegram to which a reply has been prepaid, the delivery office will enclose with such cablegram a written notice to the addressee that a reply containing [here insert the number of words RP calls for] words has been paid for.

RULE XIII.

Upon the arrival of a cablegram to which a reply has been prepaid, the delivery office will forward to the receiver an order (or special form) which will entitle him to send, free of charge, a reply containing the number of words paid for. This notice should bear the received wire number of the reply-paid cablegram for reference when the answer is filed.

This order remains in force for six weeks from date, after which the reply must be prepaid by the sender of it.

RULE XIV

The sender of a cablegram at the time of filing it may order it repeated, in which case the various offices en route repeat it back to each other as it passes. The words "Repetition paid," or the indication TC, besides being transmitted in the check free, must be inserted immediately before the address—that is, as a part of the address, and must be charged for. A quarter rate additional must be charged for the repetition. The indication TC is counted and charged for as one word.

RULE XV.

The sender of a cablegram at the time of filing it may request that notice of the time at which it is delivered may be transmitted to him by telegraph. The words "Acknowledgment paid," or the indication PC, besides being transmitted in the check free, must be inserted immediately before the address—that is, as a part of the address, and must be charged for. The indication PC is counted and charged for as one word.

The charge "for an acknowledgment of receipt" is equal to that of a cablegram containing five words.

An office receiving a cablegram with the indication "PC" before the address will immediately, without reference to the addressee, advise the sending office of such received cablegram by a service cablegram, containing not more than five words, of the person, time and place to whom and at which the received cablegram was delivered.

The check of such service cablegram will contain the indication "CR," which indication will not be counted or charged for.

REMARKS.—The indications reply seven prepaid, RP7, TC, PC, CR, or any other special instructions should always be enclosed in parentheses—thus, (RP7). In these cases the parentheses are not counted. See Rules 12 and 14, and examples under Rule 11.

RULE XVI.

Every cablegram exchanged between two offices to rectify or complete a cablegram already transmitted, or in course of transmission, will be charged for at full rates.

The charges will be refunded without delay to the person who paid them, if it be found that the telegraph service is at fault.

No return of charges will be made upon the original cablegram which has been corrected in this manner, and no claims for rectifications obtained direct between senders and receivers will be entertained.

If repetition of a doubtful word or words be requested, the same may be procured by service message.

If a repetition be asked for in a cable message which has been transmitted to the telegraph office by telephone, the telegraph office must obtain the repetition from the sender before sending a reply. If errors have been made on the telephone, the letters "CTP" followed by the number of words corrected must be added to the reply, thus: "C.T.P. two"

"C.T.P." means "retain the charges"

"C.T.P. two" means "retain the charges collected for the repetition of two words."

NOTE.—Service messages asking for repetitions of words in cablegrams must be answered at once from the original copy. Repeat the word or words questioned immediately.

Then, if there is any doubt as to the reading of the word or words, consult the sender, and send a second service message correcting the misreading of copy, if any.

In case the sender of the cablegram wishes to make any change in the cablegram as first written after it has been transmitted, the change must be made by a paid service telegram, as per Rules IV. and XVI.

Following is copy of a service message that was sent by one office on the line:
"Newcastle Tyne, per C.S.

Sy cable A68 date Ch 25 words to Yester, Tomscreek, party claims dont understand 17th word Amanulose. Thinks it might be Amouron, answer.

(Sig.)....."

Had the office sending the above service used the correct form, it would have saved the transmission of a large number of unnecessary words. The correct form for the above service would have been as follows:

"CS per Montreal,

Newcastle—A68 Yester. Seventeenth Amanulose.

(Sig.)....."

RULE XVII.

All complaints respecting irregularity in the transmission or delivery of cablegrams should be made by the sender, and in cases of non-delivery, should be accompanied by a declaration in writing from the receiving station, or from the addressee, to the effect that the cablegram has not been received, and, in cases of error or delay, the complaint should be accompanied by the addressee's copy of the cablegram.

No refund shall be made excepting as provided by Rules XII and XVI unless under instructions from the Superintendent.

Every claim should be made, under penalty of rejection, within sixty days of the date of the cablegram.

CONDITIONS OF ACCEPTANCE

The message must be written in French or in the language of the country of origin, or in the language of the country of destination. The sender must declare which of these languages is used.

The sender must write before the address, and pay the charge on one word for the letters LCP, LCO or LCD, according to his declaration. (This is a stipulation of the European Government.)

The letters "LCP" indicate that the message is written in the French language;

"LCO," the language of the country of origin;

"LCD," the language of the country of destination.

The message must have an address of at least two words and a text of at least one word. A signature is optional with the sender, but the Company will not be able to make unpaid enquiries about the senders of unsigned messages.

The address may be a registered cable address. If a full address is used, house and street numbers may be expressed in figures.

The text must be written entirely in plain language without figures, commercial marks, groups of letters, abbreviations or mutilations. Numbers, except in the address, must be written in words (i.e., spelled out). Genuine words spelled according to established usage, with not more than fifteen letters, will be charged as single words.

Messages written in the manner prescribed will be counted and charged according to the International Regulations.

The messages will not be subject to arbitrary delay in transmission or delivery. Their transmission will only be delayed until full rate messages have been despatched, and not more than twenty-four hours.

The prepaid reply must be considered in the terms of full rates. For example, the instructions RP 10 before the name or Cable Address of a Deferred Plain Language message means ten full rate words or twenty Deferred rate words. If a sender only wishes to prepay ten Deferred rate words the instructions would be RP 5.

Paid Service Messages must always be charged for all full ordinary rates. A Paid Service Message is an urgent communication. It takes precedence of other traffic.

It should be understood that Paid Service Messages do not take the same rate as Press Messages, Deferred Plain Language Messages, or any other messages transmitted at less than the ordinary rates.

If a sender desires to make a change in a reduced rate message, or to give instructions about it, it may be better for him to send a new message.

The Egyptian and Soudanese Administrations have declared English to be the Language of Country of Destination (LCD) for their territories.

The British Administration announces that the Language of Country of Destination (LCD) for any British Dominion is English, but for the Straits Settlements and Malay States, the Malay language may be used instead of English, and for the South African Union the Dutch language may be used instead of English.

The Swiss Administration has declared French, German and Italian to be the languages of the Country of Destination (LCD) for Switzerland.

The Austrian Administration has declared German, Czech, Croatian, Italian, Polish, Roumanian, Ruthenian, Servian, Slavonian, Slovakian, and Slovenian to be the languages of the Country of Destination (LCD) for Austria.

The Hungarian Administration has declared Hungarian, German, Croatian, Italian, Roumanian, Ruthenian, Servian and Slovakian to be the languages of Country of Destination (LCD) for Hungary.

The language of the country of origin "LCO" is always admitted. This must be understood in connection with Switzerland, Austria, Hungary and other countries admitting several languages, as languages of the country of destination. "LCD," for example: A Deferred Plain Language message from the United States to Switzerland may be in English, "LCO," or in French, German or Italian, "LCD," but there must be no mixing of these languages.

In the reverse direction from Switzerland to the United States, the "LCO" language may be French, German or Italian, and the "LCD" language, English.

Deferred Press despatches may be accepted for the United Kingdom at the rate of five cents per word FROM Montreal. Other offices will add one-fourth of the word rate TO Montreal given below.

Deferred press despatches will be transmitted after ordinary messages and ordinary press despatches. Senders must be asked to write the word "deferred" on deferred despatches and tolls will be collected for this extra word.

For rates to Europe and beyond, take the following rates per word TO MONTREAL and add thereto the rates FROM MONTREAL, given opposite the destination:

Messages for Honolulu and for all places in the Island of Oahu are delivered without extra charge.	
Messages for the Islands of Hawaii, Maui and Kauai, may be forwarded beyond Honolulu by mail or by wireless telegraph. The charge for the wireless transmission is one dollar and fifty cents for ten words (or less) and fifteen cents for each word over ten, address and signature to be counted and charged for, in addi- tion to the rate to Honolulu. There is no charge or mailing.	
Messages for other Hawaiian Islands can only be forwarded by mail from Honolulu.

Montreal

The name of the Island must appear in the address of every message going beyond Honolulu.

"Via Wireless" must be signalled in the checks of messages to be forwarded by wireless telegraph.

The Commercial Pacific Cable Company will not assume any responsibility in respect to the transmission or delivery of any message beyond the terminus of its own lines to Honolulu.

Applicants for registration in Honolulu of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

When the Trinidad-Demerara cable is interrupted, messages may be addressed to Demerara as usual and Demerara rate charged, or they may be ordered to be posted from Trinidad and the Trinidad rate charged.

In the latter case they must bear a mail address instead of a cable address, and the words "Post Trinidad" must be paid for. Example: "Smith and Co., Demerara," "Post Trinidad."

A message addressed "Barnack, Demerara," with "Post Trinidad," or other free instruction in the check, is to be regarded as a message paid for at the Demerara rate.

The normal route for Jamaica and British West Indies traffic is "via Bermuda."
*This rate applies to Halifax, N.S., via Bermuda only.

NOTE.—For rates to Colon, Panama and other places in Republic of Panama, see page 790.
Business for Colon and Panama must be routed "via New York," to be transmitted over the New York-Colon cable.

Telegrams for Isthina and Quibdo, places in the interior of Colombia, should only be accepted subject to delay, as the lines pass through uninhabited regions and are seldom in good working order.

† Republic of Panama, U.S. of Colombia, Ecuador, Peru and Venezuela, refuse to investigate complaints concerning the transmission or delivery of telegrams passing over their lines, or to refund the charges paid therefor, under any circumstances whatever. Messages for stations on such lines can, therefore, be accepted only at sender's risk. The foregoing notice does not apply to telegrams destined to Colon and Panama in the Republic of Panama, Buenaventura, in U.S. of Colombia; Guayaquil and St. Elena in Ecuador; Callao, Lima, Mollendo and Payta in Peru; or La Guayra in Venezuela.

* When Government lines to Nicaragua are not interrupted messages may be accepted to go via wireless at following rates beyond Colon. Such messages must be marked "via Colon and wireless."

Bluefields, Bocas del Toro and all points in Costa Rica, 21 cents per word cable count, signature counted. In addition to these rates add the rate to Colon. All messages at sender's risk.

COMMERCIAL PACIFIC CABLE COMPANY

This business is governed by the same rules and regulations as for Atlantic Cable business, except that a separate report under the heading "COMMERCIAL PACIFIC CABLES," will be required.

Cablegrams sent or received over this route must be marked and routed "via San Francisco, Calif."

To the rate per word BEYOND San Francisco, Cal., given on pages 760 to 780, inclusive, add the following rate per word TO San Francisco:

HAWAIIAN ISLANDS

Messages for Honolulu and for all places in the Island of Oahu are delivered without extra charge.

Messages for the Islands of Hawaii, Maui and Kauai, may be forwarded beyond Honolulu by mail or by wireless telegraph. The charge for the wireless transmission is one dollar and fifty cents for ten words (or less) and fifteen cents for each word over ten, address and signature to be counted and charged for in addition to the rate to Honolulu. There is no charge for mailing.

Messages for other Hawaiian Islands can only be forwarded by mail from Honolulu.

The name of the Island must appear in the address of every message going beyond Honolulu.

"Via Wireless" must be signalled in the checks of messages to be forwarded by wireless telegraph.

The Commercial Pacific Cable Company will not assume any responsibility in respect to the transmission or delivery of any message beyond the terminus of its own lines to Honolulu.

Applicants for registration in Honolulu of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

THE
CANADIAN PACIFIC RAILWAY
CO'S TELEGRAPH

BOOK OF RULES.

RECEIVING DEPARTMENT

RULE 1

Telegrams
to be on
proper forms.

Each telegram for transmission will be written upon the form provided by the Company for that purpose, or will be attached to such form by the sender, or by the person presenting the telegram as the sender's agent, so as to leave the printed heading in full view above the telegram.

Telegrams at
sender's risk.

Regular sending forms must be used when receiving telegrams, or night lettergrams, over the telephone or over pony wires connecting with private concerns, or when receiving business from connecting lines by direct wire.

Plain paper must not be used.

Telegrams to be delivered by telephone, mail, stage, or train are forwarded at sender's risk of delay, non-delivery or loss, and must be prepaid. When telegrams for such delivery are offered, the sender must be advised of this regulation.

Collect telegrams accepted in disregard of it will be treated as prepaid. Transfer stations receiving such a telegram (i.e., a collect telegram routed by telephone, train, or mail), will forward it at once, notifying the originating station of the fact, and that the telegram has been entered in the uncollectible account.

When a telegram is offered for a telephone station for which only telegrams to subscribers are accepted (see Pigeon Point, Del.), the originating station must ascertain and note in the check that addressee is a subscriber.

Telegrams
relating to
betting, etc.

An act of Parliament prohibits the wilful and knowing transmission and delivery of telegrams conveying any information relating to, or assisting in, book-making, pool-selling, betting or wagering. All such telegrams must be refused. Employees should, therefore, govern themselves accordingly.

RULE 2

Telegrams
to be timed,
etc. by
receiving
clerk.

Each telegram will be timed by the receiving clerk, who will see that the place from, month and day are correctly noted thereon; he will also carefully read each telegram before accepting it, and when necessary, will make it plain by marginal notation before it is sent to the operator.

Special attention of receiving clerks is called to the necessity for the accurate counting and checking of messages at the counter. It is found that most of the wrong checks originate at the receiving counter and as they pass along the line endless trouble and delay arises therefrom.

Ample time should be taken by receiving clerks to make an accurate count and eliminate this weak feature in their department.

Code addresses on land-line, or domestic telegrams are insufficient, and therefore will not be accepted.

The use of code addresses on the lines of this company must be confined wholly to cablegrams.

Patrons offering domestic telegrams with code addresses will, impartially, be required to furnish sufficient addresses.

RECEIVING DEPARTMENT.

787

In the event that any domestic telegrams bearing a code address is inadvertently transmitted over the lines of this company, the office at destination will report to the originating office that such telegram is "Undelivered, address unknown," and the originating office will notify the sender accordingly.

It may be explained to patrons that the foregoing rule is made for the purpose of facilitating the delivery of all telegrams, and that the use of code addresses for land-line telegrams is objectionable to this company, because it involves the keeping of records, delay in delivery, and greatly increased liability of error and of loss of telegrams.

Moreover, the use of code addresses is in no way of advantage to patrons, because no charge is made for addresses.

A copy of the foregoing should be forwarded to patrons who have been accustomed to use code addresses in domestic telegrams.

Receiving clerks should endeavor to see that the name of the state is written in full in the address of each message directed to any city of which there are more than one of the same name.

In all such messages directed to New York or New Jersey the name of the state must be carefully transmitted and copied in full.

In all addresses operators must carefully transmit and copy the authorized abbreviations of the name of the State.

Sending operators will not transmit the titles "Mr.," "Messrs.," and "Esq.," when they appear in the address of a telegram.

The prefixes "Mrs.," "Miss," and any distinctive titles such as "Gen.," "Hon.," etc., however, should be transmitted whenever they form part of the address.

Particular attention is called to messages addressed to Albany, Ashland, Augusta, Newark, Portsmouth, Salem and Springfield.

In all messages accepted for Portland, Maine, Portland, Michigan, Portland, Ontario, Portland, Oregon, Greenville, North Carolina, Washington, North Carolina, and Greenville, South Carolina, the name of the state should be written in the address in full, and sending operators will transmit and receiving operators copy the words Maine, Michigan, North Carolina, Ontario, Oregon, and South Carolina in full. *Managers will not put this on bulletin boards.*

"If the sender of a telegram desires to prepay a reply to the telegram, the letters 'RP' will be placed and transmitted in the check of the telegram."

In the case of charged, or other responsible customers, offices need not demand a cash deposit for such prepaid reply; but in the case of transients or an unknown person desiring to take advantage of this indication, a deposit covering a reply of at least ten words must be taken.

If a reply of more than ten words is paid for, the check will indicate the number of words paid for—thus, "9 RP 10."

The office at destination will stamp or write on the delivered telegram, and also on the envelope, the words "Answer paid for," and will give special instructions to the messenger to secure such answer.

RECEIVING DEPARTMENT.

The answer to the telegram will be checked "—Collect PR," indicating that such answer is a "Prepaid reply."

A collect answer to a "RP" telegram will be accepted regardless of the number of words it contains, and if the sender of the "RP" telegram declines to pay for the excess number of words, credit will be taken in R & U for the uncollectible portion of tolls with proper explanation and without notice to originating point.

REMARKS: The receiving clerk should give any aid or explanation necessary to enable the sender to prepare his telegram so that errors or delays may be avoided.

No change should be made in any telegram by an employee of the Company, but misspelled or abbreviated words may be courteously referred to the sender for correction. If the sender decline to make correction, the telegram will be accepted as written.

The importance of the address cannot be over estimated. When the address given seems insufficient, a better one should be requested. The sender's address, unless well known, should be noted on the back of telegram, or recorded for reference.

It is highly important that clerks and operators time all messages correctly, and to make this possible it is necessary that Managers and chief operators shall at all times keep the clocks adjusted to indicate correct time.

The correct timing of messages, always important, is now more important than ever because of the Special Rush Service.

Employees will be careful to place the time on all telegrams. This applies to timing of messages at the counter and by the operator, the timing of messengers' sheets and call circuit records.

If a telegram be offered without signature, the sender's attention should be called to the omission, and if the sender then decline to sign the telegram, the receiving clerk will write in the place of the signature the words "Not Signed."

In order to facilitate the delivery of telegrams, addressed to passengers enroute on trains, the sender of the message should be requested to give a sufficient and proper address, if possible, the train number or name and the stations between which the passenger is travelling.

A telegram to be delivered "personally" or "privately" will have the word "personal" or "private" inserted in the address, and one extra word charged for.

Example:

John, Smith, Personal,
146 St. James St.

RULE 3.

Words to be
counted and
charged for.

In a prepaid telegram the undermentioned words will be counted and charged for, viz.:

All words in an extra date. (See Rule 2.)

All extra words in an address.*

All words, figures and letters (as per Rule 4) in the body or text

All signatures, except the last one in case of two or more.

All words after the last or only signature, and in the check, the words, "*Report delivery charges*," "*Delivery charges guaranteed*," "*Report delivery*," and "*Repeat back*." (See Rules 6 and 7.)

In a collect telegram, the word "*collect*" in the check will be counted but not charged for.

When a telegram bears two or more addresses, and delivery is to be made to each address, it will be charged for as two or more telegrams as the case may be.†

*REMARKS: In the address of a telegram to one person or to a firm, or to "*Mr. and Mrs.*—", there are no extra chargeable words; but in the address of a telegram to either of two or more persons in the same place or town, as to "*John Smith, 80 St. James Street, Montreal, or James Brown, 195 Craig Street, Montreal*," there are nine extra chargeable words, viz.: *or James Brown, 195 Craig Street, Montreal*, which will be included in the count and charged for.

†A telegram addressed, for example, to *W. Brown, No. 26 Bleury St., Montreal, and B. Wells, No. 80 St. Lawrence St., Montreal*, will be charged for as two telegrams.

A message addressed to *J. B. Jones and R. K. Brown, Senate Chamber, Washington, D.C.*, will be charged for as two messages. A message addressed to *Senators Jackson, Reid and Preston, Washington, D.C.*, will be charged for as three messages. The additional addresses will not be considered as extra words.

RULE 4.

In counting a message as directed in Rule 3, "dictionary" words (i.e., words taken from one of the following languages, namely, English, German, French, Italian, Dutch, Portuguese, Spanish and Latin), initial letters, surnames of persons, names of cities, towns, villages, States or territories, or names of the Canadian provinces, will be counted and charged for each as one word. The abbreviations for the names of towns, villages, States, territories and provinces will be counted and charged for the same as if written in full. Abbreviations of weights and measures in common use will be counted each as one word.

EXAMPLES:—

Signatory (<i>English</i>).....	1 word
Auf wiedersehen (<i>German</i>).....	2 "
A bon marché (<i>French</i>).....	3 "
Erba malo presto cresce (<i>Italian</i>).....	4 "
El corazon menda las carnes (<i>Spanish</i>).....	5 "

Examples:—

United States of Colombia.....	4 words
U. S. A.....	3 "
North America.....	2 "
Queen Anne County.....	3 "

All groups of letters, when such groups do not form dictionary words, and are not combinations of dictionary words, will be counted at the rate of five letters or fraction of five letters to a word. When such groups are made up of combinations of dictionary words, each dictionary word so used will be counted.

EXAMPLES:—

Ukugu (<i>artificial</i>).....	1 word
Babelu (<i>artificial</i>).....	2 "
Bacyzafyih (<i>artificial</i>).....	3 "
Abycasfybik (<i>artificial</i>).....	3 "

NOTE.—To prevent liability to error, numbers and amounts should be written in words, and when not so written, the receiving clerk will request that it be done. If the customer refuses to write the amount in words, the message will be accepted as written, and counted accordingly.

A number of inquiries have been received as to how employees can determine whether or not code words in telegrams filed for transmission are "dictionary" words; that is, words taken from the eight specified languages.

The difficulty of determining whether a code word is artificial or taken from one of the eight specified languages does not seem to us to be serious.

Patrons who desire to benefit by the use of codes are expected to see to it that their codes are made up of words taken from the specified languages, unless they are prepared to pay for their code words on the basis of the five-letter count. Any attempt by patrons to force this Company to accept as one word a code word that could not properly be so accepted under the rule, would be an attempt to evade the rule for the purpose of withholding from the Company pay to which it is entitled. We do not anticipate any such attempt on the part of reputable patrons.

If there is any honest difference of opinion between our patrons and our employees as to whether or not any given words are taken from one of the specified languages, the question will be referred to the executive offices of the Company, where it can readily be settled by consulting the dictionaries of the various languages or the official vocabulary, and when so determined, patrons and employees interested will be properly advised and instructed for their future guidance.

Whenever a reputable patron insists upon the acceptance, as one word, of a code word that in the opinion of the local manager, should be subjected to the five-letter count, such code word may be accepted, charged for as one word and transmitted; but the patron should be immediately advised that the code word is questionable and that an additional charge thereon may subsequently be made, and requested to state from what language the code word has been taken. The matter should then be referred, through the usual channels, to the Superintendent of Tariffs, for decision as to whether or not such words shall in future be subjected to the five-letter count.

When such questionable words are tendered by transient or irresponsible patrons, they will be subjected to the five-letter count, and charged for accordingly, and the patron requested to leave his address, and to state from what language the code word has been taken. He should then be informed that the matter will be referred to the Superintendent of Tariffs for decision, and that if the count is decided to be incorrect under the rules, proper refund will be made.

RECEIVING DEPARTMENT.

NOTE.—Groups of letters must be transmitted in groups as written by the sender of the message, and must not be divided, although counted and charged for as more than one word.

NOTE.—Managers of offices at which code books of any kind are kept on file for the convenience of patrons, will cause a copy of the following notice to be pasted upon the cover of each of such code books:

"This code is kept on hand for the convenience of patrons in translating code messages received. Any person using this code in the preparation of a message does so at his own risk."

Code Books filed at offices should be produced only upon the request of a customer.

All Code Books kept on hand should be labelled "FOR USE ONLY IN DECODING MESSAGES. Senders of messages use this Code Book at their own risk. The Telegraph Company does not know that a copy of this Code Book can be found anywhere."

Managers will inform senders of messages who wish to use the book on the supposition that it can be found by the addressee at the telegraph office of destination that they do so at their own risk.

RULE 5.

Checks on telegrams.

The receiving clerk's check upon a paid or collect telegram will be made in accordance with the following examples:

REMARKS: The check of a ten word telegram to a "this" line office will be, for example,
"10 paid 25"—or,
"11 collect."

The check of a ten word telegram to an "other" line office will be, for example,
"10 paid 25 and 30 via Montreal,"—or,
"11 collect 25 via Montreal."

The check of a ten word telegram for special delivery from a "this" line office when the delivery charges are known will be, for example,
"10 paid 25 and 1 00 delivery,"—or,
"11 collect 25."

If the delivery charges be unknown the check will be, for example,
"13 paid 25 report delivery charges,"—or,
"11 collect."

If the delivery charges from an "other" line office be for example, 50 cents, and the "other" line rate 25 cents the check will be,
"10 paid 25 and 75 via Montreal,"—or,
"11 collect 25 via Montreal."

(The 75 includes the "other" line tolls and 50 cents for delivery.)
(See Rule 24 for D.H. telegram checks.)

RECEIVING DEPARTMENT.

803

The following example will show the proper counting of the word "collect" in checks of telegrams containing double words:—

"John Jones
Chicago, Ill.

(Check 11/5 collect)

New York, June 20, 1910

Bhamnty sghytx chgtkvy fghrd suytver

J W. & Co"

The first figure indicates the total count and the second figure shows the number of text words. The word "collect" is included in the first figure, the second being a guide as to the number of text words.

It would assist the sending operator considerably if counter clerks marked doubtful words, that might either be counted as one or two words. This will assist in verifying checks, etc. Attention is called to the urgent necessity of counter clerks being very careful in the counting of checks in night lettergrams. There is considerable lost time on the wire due to the incorrect counting of the lettergrams when filed.

RULE 6.

If the sender of a telegram request a notice of its delivery, the receiving clerk will insert in the check the words "report delivery." Request to report delivery.

If the sender request a repetition of his telegram, the receiving clerk will insert in the check the words "repeat back" and will charge a half rate for the repetition, in addition to the rate for the telegram. Repeated Telegrams. (See Rule 36.)

In such instances the words "report delivery" or "repeat back," as the case may be, will be included in the count and charged for

RULE 7

A telegram to be specially delivered beyond the free delivery limits of the terminal office, and for which the delivery charge is not given in tariff book, will be accepted upon the payment or guarantee of an amount sufficient to cover the telegraph tolls and the probable cost of delivery. The words "report delivery charges," when the charges are to be paid by the sender, or the words "delivery charges guaranteed," when they are to be paid by the addressee, will be inserted in the check of such a telegram and will be counted and charged for. Special Delivery

Places, establishments, institutions, etc., for which telegrams may be accepted for delivery by special messenger, mail, stage, train or other means, are indicated by two stars (**) placed before the name.

When the delivery charges to special delivery ** points are shown in the Tariff Book, it will be understood that such delivery charges are ~~FR~~PAID, unless otherwise shown in the check of the telegram, and delivery offices must not send service telegram inquiring if such delivery charges are guaranteed.

RECEIVING DEPARTMENT.

RULE 8.

Extra Dates.

Whenever a telegram which has come over the line of any other telegraph company is offered at a place not indicated by the tariff book of this Company as the proper place for such telegram to reach the Canadian Pacific Lines; or whenever a telegram is received at any office by mail to be forwarded by telegraph, or in case a person having received a telegram request the same to be forwarded to another place; or if a person leave town before the arrival of an expected telegram, and it be forwarded to him—in each of these instances the name of the place where the telegram originated and the date will be counted and charged for as part of the telegram. For example, if the following telegram should pass over the line of another telegraph company from Buffalo to Toronto, or through the mail, or be received by any other person than the addressee by telegraph or mail, or should arrive by "this" line after the addressee had left town, and a request be made that it be forwarded to Montreal, it will be sent as follows:

Buffalo, N.Y., Oct. 24.
via Toronto, Oct. 24.

John Brown Montreal, Quebec,

Meet me next Monday, at ten o'clock in the forenoon.

15 paid 5 Kx.

H. Smith.

Thus adding in and charging for as a part of the telegram, the five words "Buffalo, N.Y., Oct. 24."

Forwarded Telegrams.

When a telegram which is to be forwarded is a "received collect" telegram, the forwarding office will check it so that the tariff from that office to destination shall appear in the check as "this" line tolls, and the tariff from the originating office to the forwarding office as "other" line tolls. (See Rules 63, 72 and 74.)

REMARKS: Suppose the tariff from Buffalo to Toronto to be 30 and 2, and from Toronto to Montreal 25 and 1, and a ten word telegram (as per above example) has been sent "collect" by Buffalo to Toronto which the latter office is to forward to Montreal; Toronto should check the telegram (counting five extra words):

"16 collect 30 and 30." The "30" tariff from Toronto to Montreal represents the "this" line tolls for fifteen words, and the "30" (tariff from Buffalo to Toronto) represents "the other" line tolls for 10 words.

NOTE.—Telegrams must in every case show the place where the telegram originated and the date.

No employee of this company will be permitted to act as agent for the sender, and by so doing change the point of origin. See above rule, and be governed by instructions therein contained relating to forwarded telegrams.

Any deviation from this rule might lead to serious frauds, making the Company liable for damages.

RECEIVING DEPARTMENT.

803

RULE 9

If a telegram be offered when communication is known to be interrupted, it will be accepted only if the sender chooses to leave it for transmission when communication is restored. Upon such a telegram write the words, "subject to delay," and request the sender to affix thereto his signature or initials.

RULE 10.

Employees are particularly cautioned against making any promise to customers respecting the transmission or delivery of a telegram within any specified limit of time. The assurance that due diligence will be exercised is proper.

RULE 11

All telegrams must be prepaid, except such as are entitled to free transmission and those covered by Rules 12 and 46.

RULE 12.

An answer to a prepaid telegram, or a telegram for which payment for transmission or for special delivery, is guaranteed by a responsible party, may be accepted "collect."

When a deposit has been made to guarantee payment for transmission or for special delivery, the deposit will be returned after three days, if no notice of failure to collect the charges has been received. But if a notice of failure to collect be received the amount due to the Company will be deducted from the deposit and the remainder will be returned. (See Rules 51 and 57.)

If the sender of a telegram desires to prepay a reply to the telegram, the letters 'RP' will be placed and transmitted in the check of the telegram.

In the case of charged, or other responsible customers, offices need not demand a cash deposit for such prepaid reply; but in the case of transients or an unknown person desiring to take advantage of this indication, a deposit covering a reply of at least ten words must be taken.

If a reply of more than ten words is paid for, the check will indicate the number of words paid for—thus, "9 RP 16."

The office at destination will stamp or write on the delivered telegram, and also on the envelope, the words "Answer paid for." and will give special instructions to the messenger to secure such answer.

The answer to the telegram will be checked "Collect PR," indicating that such answer is a "Prepaid reply."

A collect answer to a "RP" telegram will be accepted regardless of the number of words it contains, and if the sender of the "RP" telegram declines to pay for the excess number of words, credit will be taken in R & U for the uncollectible portion of tolls with proper explanation and without notice to originating point.

Note.—A guarantee will not be required on collect messages, sent by travelling agents or representatives, addressed to their home firms, provided the sender of such message furnishes satisfactory evidence of his connection with such firm.

RECEIVING DEPARTMENT.

Insured
telegrams.

RULE 13.

For an insured telegram the receiving clerk will observe the conditions in relation to such a telegram contained in the printed heading of Form 2

Night
lettergrams.

RULE 14.

Night lettergrams may be accepted for all check direct offices in Canada and the United States; for all one star offices in Canada not otherwise indicated in the list of stations; for wireless and telephone offices where indicated in list of stations and for special delivery points.

The charge for night lettergrams of fifty words or less will be the regular day rate for ten words, and one-fifth ($\frac{1}{5}$) of this rate will be charged for each additional ten words or less.

Night lettergrams accepted for one, two and three star stations in the United States and Canada will be charged for at night lettergram rate for "this line," and unless otherwise specified, full ten word day rate for "other lines."

Night lettergrams must be written in plain English; code or cipher is not permitted.

Night lettergrams will be written on special night lettergram blanks to be furnished. "N. L." will be written, transmitted and copied in the check in each and every case. They may be accepted either prepaid or collect under the usual regulations, and will be taken at the counter or by telephone or collected on call at any time of the day up to midnight, but, as in the case of other night business, will not be put on the wires until night, and when the wires are clear of full paid day business.

Night lettergrams will be delivered as early as convenient the next morning.

Night lettergrams may, at the option of the Telegraph Company, be mailed at destination to the addressee, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such night lettergram at destination, postage prepaid.

The instructions that night lettergrams must be written in "plain English language" do not disqualify words of an artificial character representing trade names or terms, trade designations of cotton shipments, brands or grades of flour, and other manufactured products. Trade names and trade designations should be accepted without question, provided they are used in their natural sense, and are not used to convey a hidden meaning as code or cipher words do.

For example, the expression "Unecda" is the name of a product of a biscuit company. "XXX" is used to express a certain brand or grade of flour. "FHC," "AFC," "HLPH," represent cotton shippers' brands.

Competing offices must not accept night lettergrams for exclusive Western Union offices and non-competing offices should not accept such messages unless satisfied delivery can be made at transfer point before midnight. Such Western Union messages, reaching transfer point after midnight, are refused at the night letter rates; in every such case office of origin will be held responsible for the full other line toll as well as this line night letter toll to transfer point.

Night lettergrams must not be accepted for * * * points shown in the Tariff Book with notation "Tariff same as square ———."

RECEIVING DEPARTMENT.

807

Receipts and checks for night lettergrams will be included with the receipts and checks for regular day and night commercial messages in the check report.

A night telegram will be written upon a regular form, with the words "Night Message" written or stamped across the top, and will be accepted only between the hour of opening and 2 a.m. An office closing before 2 a.m. will not accept a night telegram that cannot be started before the closing hour. In case of an interruption of the lines which it is believed will prevent the transmission of a night telegram before the following morning such telegram will not be accepted.

"Other line" offices to or from which night messages may be accepted, are designated by the letters "N M" which follows the rate for "other lines."

Night messages to one, two or three star stations may be accepted at night message rates for "this line," and full rate, or night message rate if there be any, for "other line."

RULE 15.

A telegram containing profane or obscene language will not be accepted, but employees are cautioned not to refuse messages properly signed and relating to business, legal proceedings, or in cipher, etc. Our patrons should be requested to expunge from messages such words as "thief," "liar," etc., when used in an objectionable manner.

RULE 16

(For further instructions see Rule 3, page 11.)

Complimentary stamps are issued, which, when attached to a telegram and presented with the cover of the book of stamps, will entitle the person to whom issued to send such telegrams free of charge. If cover not shown, forward telegram, but report the circumstances to the Telegraph Superintendent.

Franks are issued to persons who are entitled to send telegrams free, and are of three classes, viz.:

- Business franks,
- Half-rate franks,
- Complimentary franks.

RULE 17.

A telegram offered for transmission under a frank will be carefully scrutinized before acceptance, so that any improper or fraudulent use of the frank may be prevented; but the telegram will not be refused unless the evidence is clear that its free transmission is not authorized by the frank.

RULE 18.

Franks issued by this Company are good only over its own lines between points indicated C.P.

Franks issued by the Postal Telegraph Cable Company are good only over its own lines, including points indicated by the letters A A, C U, M P, P M, P N, P P, R, S F, N E, and T P.

Franks issued by "connecting" lines are not good over "this" line unless countersigned by the Manager of Telegraphs of "this" Company.

RECEIVING DEPARTMENT.

When a "C.P." frank is used to frank a telegram destined to a place on "connecting" or "other" lines the "connecting" or "other" line tolls must be collected and the telegram checked as prepaid throughout. Credit for the "this" line tolls will be taken in the "Refunded and Uncollectable" account.

A telegram to a "connecting" or "other" line office, offered for transmission under a frank, will be accepted provided that the place of transfer is within the territorial limits indicated on the frank, and that the tolls for "connecting" or "other" lines are paid.

REMARKS: "C.P." franks do not cover "connecting" lines, unless countersigned by the President or the General Manager of the "connecting" line, nor do "connecting" line franks cover "C.P." unless countersigned by this Company's Manager of Telegraphs.

RULE 19

Telegrams beyond limits of franks.

A telegram to a "this" line office beyond the territorial limits of a frank will be paid for from the place of origin to destination.

RULE 20.

Franks not good for cablegrams.

No frank issued by this Company entitles its holder to transmit cablegrams free over any portion of this Company's lines or any of its connections.

RULE 21.

Railroad telegrams.

A telegram of an officer or agent of a railroad company with which this Company has a contract, when on business of such railroad company, may be sent free, without a frank, between stations on such roads but when such telegram is offered at or for a place beyond or off such road, it will not be sent free unless covered by a frank.

RULE 22

Service telegrams.

Service telegrams between the employees of the Company will be limited to matters of an urgent nature. The mails must be used in all cases when the service will not suffer by delay.

Service telegrams will not be sent free for the information of customers, nor to correct their errors; but no service telegram shall be delayed for any cause whatever, nor shall any office decline to furnish promptly and explicitly information called for in any received service telegram. Such requests and replies should, however, be as brief as possible.

Copies of such telegrams as appear to have been improperly sent will be referred to the Superintendent for inspection.

NOTE.—A reply to a service message must in all cases be addressed to the person from whom the message is received.

The failure to observe this manner of correspondence may cause serious delay and annoyance.

RECEIVING DEPARTMENT

808

EXAMPLE.—If an office receives a service message from New York City signed "Service," the reply to such service message must be addressed to "Service," New York City.

Service messages must be addressed direct to destination instead of "per the relay points" as has been the custom.

RULE 23.

Personal telegrams of employees in this Department of an ^{urgent} social or domestic character, may be sent free on the written ^{approval} of the Agent, Chief Operator or Superintendent, ^{employees}.

RULE 24.

The receiving clerk's check of a free telegram will show the ^{Free telegram} reason for its acceptance without payment of tolls, ^{check.}

A half rate frank telegram will be checked as a full rate telegram.

The check "D.H. Company" must not be used except on telegrams relating strictly to Company business.

REMARKS: The following are examples of free telegram checks.

"11 D. H. Frank No. —,"

"10 D. H. Employee."

"10 D. H. Frank No. —, and paid 25 via Montreal."

"10 D. H. Frank No. —, and D. H. Frank No. —"

(when free over both "this" line and "connecting lines.")

OPERATING DEPARTMENT

RULE 26

Office calls.

An operator, when calling an office, will sign his own office call at short intervals, and will also sign it in answering calls.

RULE 26.

Sending operator to decide route, etc.

The sending operator will decide as to the proper route for the transmission of a telegram and as to the count of words. He will also number each telegram to the office to which he sends it, and will write after the number the call of that office. No operator will refuse to receive any telegram offered by an operator at another office.

The sending operator will regulate the transmission of a telegram to suit the ability of the receiving operator.

Receiving clerks should endeavour to see that the name of the state is written in full in the address of each message directed to any city of which there are more than one of the same name.

Particular attention is called to messages addressed to

Albany,
Ashland,
Augusta,
Newark,
Portsmouth,
Salem and
Springfield.

In all messages accepted for Portland, Maine; Portland, Michigan; Portland, Ontario; Portland, Oregon; Greenville, North Carolina; Washington, South Carolina; and Greenville, South Carolina, the name of the State should be written in the address in full, and sending operators will transmit and receiving operators copy the words Maine, Michigan, North Carolina, Ontario, Oregon and South Carolina in full. Managers will post this on bulletin board.

Operators are requested to use great care in the transmission of cablegrams addressed to Geneva.

The station to "Geneva" is frequently changed to "Genève," and misrouting and serious delays result. "Genève" is in Italy and "Geneva" is in Switzerland.

RULE 27.

Order of transmission.

In sending a telegram, the operator will observe the following order of transmission:

- 1.—The number of the telegram.
- 2.—The operator's personal signal.
- 3.—The check of the telegram.
- 4.—The place from and the date.
- 5.—The address.
- 6.—The body and the signature.

OPERATING DEPARTMENT.

811

Cablegrams of more than 75 words will be divided into 50 words on each form, and designated immediately after the number as 1st sheet, 2nd sheet, etc.

Telegrams must be sent as they are written. Where periods or other punctuation marks are used, care must be taken to transmit them precisely as contained in the original. Where there is any doubt as to the reading of a telegram, it must be referred to the Chief Operator.

Sending operators will not transmit the titles "Mr." "Messrs." and "Esq." when they appear in the address of a telegram.

The prefixes "Mrs.," "Miss," and any distinctive titles such as "Gen.," "Hon.," etc., however, should be transmitted whenever they form part of the address.

Valuable time is lost by reason of some sending operators, particularly on way wires, using the signals "Ahr" for "another"; "No" for "number"; "Ck" for "Check"; "Fm" for "from," all of which are unnecessary and should not be transmitted.

It is sufficient if we commence the message with its actual number and cut out the "Ck" and "Fm." By doing this it will be found that the carrying capacity of the circuit will be considerably increased.

Operators are warned against confounding the suffix Th with the figure 8, or vice versa, in transmitting or receiving numbers either in the body of a telegram (for example, 242 West 9th Street, rendered 242 West 98th Street.)

To obviate errors of this kind, operators will not transmit "TH" following a figure in the address of a message.

Telegrams filed at branch offices must carry call of such office in the date through to destination, thus:—"Bx Montreal" and service messages relating thereto should be addressed to "Bx Montreal."

RULE 23.

All the figures and words in the check of the telegram will be transmitted, except the word "paid," and, Transmission of checks and "Other Line" tolls.

The amount of tolls in case of a prepaid telegram to a "this" line or "connecting" line office.

Should, however, any collect telegram from an "other" line office reach destination without the amount of tolls in the check, the office of destination will still be held for both "this" and "other" line tolls, the omission of tolls in check not being a sufficient reason for failure to collect the correct rate.

RULE 20

The sending operator will write upon each telegram sent, the message number, call of office to which sent, time of sending, and on each his own and receiving operator's personal signals. the Time, etc., telegrams.

In timing "Sent" messages, operators must not make any notations so as to obscure the address, destination, text or signature of the "Sent" copy.

Acknowledgment of receipt.

No telegram will be regarded as transmitted until acknowledged by the usual signal; but if a number of telegrams be sent in succession, the acknowledgment of the last may be regarded as an acknowledgment of all.

NOTE.—It is of great importance that message numbers should be correct and accurately recorded.

Operators at both ends of the wire should always act upon the theory that missing numbers indicate lost messages and should call the attention of the Chief or Manager to each case; and the receiving operator should never mark off a number without first seeing the message which bears it.

Short messages should be carefully examined, as often as practicable, to ascertain whether they are properly timed, and the numbers correct.

RULE 30

When telegrams cannot be promptly transmitted.

When, for any reason, an operator cannot transmit a telegram promptly, he will note the cause of delay upon the back of the telegram, and will report the facts to the Chief Operator.

RULE 31

Order in which telegrams are to be received.

In receiving a telegram the operator will write the message number, call of office received from, personal signal of the sending and receiving operator, and the time of reception in the spaces provided. The acknowledgment of receipt will be made by transmitting the signal "O.K." and the receiving operator's personal signal and office call.

It is highly important that clerks and operators time all messages correctly, and to make this possible it is necessary that Managers and chief operators shall at all times keep the clocks adjusted to indicate correct time.

Employees will be careful to place the time on all telegrams. This applies to timing of messages at the counter and by the operator, the timing of messengers' sheets and call circuit records.

All telegrams (whether "city," "through" or "service") must be received on the regular printed forms.

Telegrams received must be copied with a pen or typewriter. The use of a pencil in receiving is prohibited. The name of the originating and delivering offices must be written in full on "city" as well as "through" telegrams, and the Province or State given in each case.

RULE 32

Verification of checks, etc.

The receiving operator will count the words, verify the check and otherwise satisfy himself that a telegram is correct before allowing it to leave his hands.

Receiving operators must count and make sure that cablegrams have the number of separate words called for in the check. If the check is a whole number there should be that number of separate words. If the check is a fractional number, such as 22/20, there should be twenty separate words in the message.

Managers and Chief Operators will insist on the observation of this regulation.

OPERATING DEPARTMENT.

813

RULE 23.

When a telegram is addressed, for example, to "A or B," for Telegrams to delivery to either, it will be transmitted as a single telegram. When more than a telegram is addressed, for example, to "A and B," or to several persons, for delivery to each of them, the manner of its transmission will be determined by the Chief Operator of the sending office, so as to use the facilities at his command to the best advantage. (See Rule 3, Remarks, and Rule 47.)

RULE 24.

An office which is not kept open all night will, before closing, Night tele- transmit its "night" telegrams to their destination, or to the nearest repeating office. A repeating or a press report office will forward "night" telegrams to their destination, or as near thereto as practicable, during the night. If any "night" telegrams are left over until the next morning, they will be transmitted before new business

RULE 25

If, to correct an error in a telegram or for any other reason, a Duplicate second transmission becomes necessary, the sending operator will begin the second transmission with the word "Duplicate," which word the receiving operator will write conspicuously on the form, above the telegram

NOTE.—Duplicate telegrams should not be delivered in such shape that the addressee does not notice the word "duplicate" or "dupe."

Operators should be careful to write the word "duplicate" in full in the check, and delivery clerks should either write or stamp the word "duplicate" in a prominent position on the face of the message (preferably in red ink), in such manner that the addressee's attention will be called to the fact that the telegram is a duplicate.

RULE 26.

Special care will be observed in sending and receiving a tele-gram requiring repetition. At the office of origin, and at each of repeated repeating office, an operator, upon receiving back a repeated tele-gram, will carefully compare it with his copy, underlining or check- ing each word, and if the repetition be found to be correct he will write on the back of the telegram the words: "Repeated back, O.K.," with his personal signal and the personal signal of the operator who repeated back the telegram. (See Rule 1)

RULE 27

An insured telegram will be preceded in transmission by the word "Insured" and will be repeated back from office to office. The receiving operator will carefully copy such telegram, and if it is to be forwarded on another circuit, he will take it to and trans- mit it over such circuit, and have it repeated back to him. The same course will be pursued in each repeating office through which such telegram may pass.

OPERATING DEPARTMENT.

RULE 31.

Operator's
signals.

No operator will change his personal signal without the consent of the Chief Operator, nor will any two operators in the same office use the same signal, nor the signal of any official or inspector.

RULE 32.

Contention
for circuit.

Contention for Circuit is positively prohibited. Gossiping over the line is absolutely forbidden, and conversation on business must be as brief as possible.

The use of profane, abusive, or indecent language over the wires of this Company, or about the office, is strictly prohibited.

RULE 40

Number
reports.

At each office, before closing, the operators will examine the number sheets, and exchange number reports of the day's business with other offices, and immediately correct any errors discovered.

NOTE.—All offices must compare numbers, whenever possible, before closing at night. When unavoidable, a service message will be sent the following morning, comparing numbers. This message must be answered only when the comparison is found to be incorrect, otherwise it must be filed unanswered. Service messages must be reduced to the fewest words necessary to convey the information intended.

It is absolutely necessary that every office should exchange numbers with its main relay office, before closing at night.

Inspection of
telegrams for
evidence of
transmission
and to prevent
loss of
telegrams.

At each office it will be made the duty of some employee to scrutinize every half hour, before filing for record, all "sent" telegrams, to see that they bear the proper indication of transmission; that the numbers are in consecutive order and complete. The utmost care must be taken to prevent unsent telegrams from being placed with those which have been sent.

NOTE.—Whenever duplicate numbers are discovered a description of both messages should be wired to the distant office, where an immediate search of the files will be made, with the view of preventing the loss of one of the messages, and adjusting the numbers.

RULE 41

Wire tests.

The Manager of a testing office, or a Chief Operator where one is employed, will make early morning tests of the wires, and see that the necessary orders to linemen are given and acted upon without delay. He will make every effort to have the circuits ready for business at the opening hour.

He must immediately notify his Chief Circuit Manager, by wire, of all interruptions and also when repaired.

The lines and equipment of this company must not be used for the purpose of experimenting with or testing electrical apparatus, except with the approval of the Manager of Telegraphs.

Directions to
linemen.

In giving directions to linemen, care will be taken to definitely locate the trouble, and to state its nature as accurately as possible.

Wire.

The word "wire" will be recognized as giving the right of circuit at all times for testing purposes (except that train orders on despatching wires have preference) and when used on a railway wire, to be understood as a request for assistance from the train despatcher.

OPERATING DEPARTMENT

815

A Manager of a testing office will keep a daily record of all Office diary interruptions and incidents which occur in the working of the and weekly lines; and will send Form 1015 to the Assistant Manager, Montreal, wire reports, Que., by first train after Saturday night. He will also send a copy of the same report to the Superintendent in whose division the wires are located.

RULE 42.

The ground wire at intermediate offices will be used only in Ground wire event of an interruption of the circuit, and then only to notify the chief or testing operator concerning the interruption and to receive his instructions.

RULE 43.

Each agent will see that his main and local batteries are kept Care of in good condition, and that each cell is thoroughly insulated, so batteries, as to prevent any escape of the current. The floors and fixtures of the battery room must be kept scrupulously clean and dry

RULE 44.

Before closing an office temporarily, or for the night, its instru- Instruments ments will be cut out, care being taken that the circuit through to be cut out the switch or cut off is complete. at night.

All the larger offices should obtain "Good Night" from the Good-Night, chief office of the district before closing, especially where any switching is done.

DELIVERY DEPARTMENT

RULE 43.

Telegrams to be copied, etc

Each telegram for delivery will be copied and enclosed in the proper envelope, which will be carefully sealed and fully and plainly addressed.

Amount of tolls to be written on envelopes.

When tolls are to be collected, the amount in words will be written in ink upon the envelope, and also upon the messenger's delivery sheet.

Should any collect telegram from an "other line" office reach destination without the amount of tolls in the check, the office of destination will still be held for both "this" and "other" line tolls, the omission of tolls in check not being a sufficient reason for failure to collect the correct rate.

Telegrams delivered by Telephone

In cases where parties authorize telegrams to be telephoned to or from them, it is necessary that offices endeavor to secure a written order to that effect, and when a telegram is so telephoned ascertain first: who is at the receiving telephone, and after the telegram has been telephoned mark the time upon the copy, the name of the party receiving at the telephone, and also the name of our employe who telephones the telegram. A copy of the telegram telephoned will not be delivered or mailed to the addressee, unless the parties who have authorized the telephoning arrange for, and request, such duplicate delivery. If a copy of a telegram telephoned be subsequently delivered or mailed to the addressee, such copy will be plainly marked "duplicate of telegram telephoned."

Managers should see that telegrams addressed to traveling salesmen are delivered in sealed envelopes in the usual manner or telephoned only to the addressee, in person, unless otherwise specifically instructed by the addressee, and not delivered by telephone to the office of firms or individuals in whose care such telegrams are addressed, so that the contents are disclosed to persons other than the addressee.

Telegrams to be dropped in Post Office.

When a telegram is to be forwarded by mail to reach destination, no charge will be made for postage at the originating office, nor any record in "other line" account at office where such telegram is mailed, unless the cost exceeds the ordinary postal rate.

Telegrams directed to be mailed, should not be dropped into a street letter box, nor given to a letter carrier; but should be promptly mailed at the nearest Post Office so as to avoid delay between telegraph offices and Post Offices

RULE 46.

Sending office's instructions as to delivery.

Instructions from the sending office in regard to the delivery of a telegram will be carefully observed. A request to "report delivery" (See Rule 6), will be answered by a collect telegram addressed to the sender of the original telegram, stating the time of delivery, or if not delivered, the reason why. A request to make the Ch. D. H. of a "collect" service telegram will not be complied with. An office manager receiving a collect reply to a request to "report delivery, get answer, etc." may, however, for sufficient reason, refer the case to the Superintendent for adjustment.

Checks not to be changed.

The practice of obtaining report of delivery by tracing a message forward through the relay offices seems to be quite general. If only report of service at the point of destination is desired, requests for report of delivery should be made direct to the office at destination.

RULE 47

When a telegram addressed, for example, "A or B" is received, it will be delivered to either one or to the other of the addressees. (See Rule 3, Remarks, and Rule 33) Telegrams addressed to more than one person

On receipt of a telegram marked "Personal" or "Private" the same indication must be prominently written on the delivery envelope and the messenger specially instructed to deliver only to party addressed.

Attention is especially called to the necessity for close scrutiny of the check of all telegrams in the delivery department. It frequently occurs that telegrams having words "Report delivery" pass through this department unheeded and such neglect has necessitated a further enquiry on the part of the originating office. The check of a telegram should be as carefully scrutinized as the address of the same.

RULE 48.

When a telegram requires an answer, the messenger will be instructed to make diligent effort to obtain such answer. Should he fail to obtain it, he will report the reason to the delivery clerk. Messengers will, in all cases, be supplied with the proper blanks on which answers can be written. Telegrams requiring answers.

"If the sender of a telegram desires to prepay a reply to the telegram, the letters 'RP' will be placed and transmitted in the check of the telegram."

If a reply of more than ten words is paid for the check will indicate the number of words paid for—thus "9 RP 16."

The office at destination will stamp or write on the delivered telegram, and also on the envelope, the words "Answer paid for," and will give special instructions to the messenger to secure such answer.

The answer to the telegram will be checked " — Collect PR," indicating that such answer is a "Prepaid reply."

A collect answer to a "RP" telegram will be accepted regardless of the number of words it contains, and if the sender of the "RP" telegram declines to pay for the excess number of words, credit will be taken in R & U for the uncollectible portion of tolls with proper explanation and without notice to originating point

DELIVERY DEPARTMENT.

RULE 49.

Free delivery limits.

Telegrams will be delivered free within what are considered the corporate limits of towns or villages. Beyond the delivery limits, only the actual cost of delivery service must be collected. Agents must exercise a careful discretion in the matter; see that such cost is as reasonable as possible, and make every effort to oblige the customer.

RULE 50.

Special delivery.

If the services of a special messenger be required, and the special delivery charges have not been provided for, the sending office will be promptly notified by telegraph of the cost of delivery, and that office will endeavor to collect the charges from the sender, who, if he pay or guarantee the delivery charges, will also pay for the telegram ordering special delivery or guarantee the collection of the tolls thereon. If the sending office be unable to collect, or if a reply from the sending office to the notice be not promptly received, a copy of the telegram will be mailed to the addressee, and if another copy be afterwards delivered, the word "Duplicate" will be plainly written across its face.

RULE 51.

In cases of failure to collect delivery charges.

When special delivery charges which have been guaranteed (See Rules 7 and 50) cannot be collected by the office making the delivery, the sending office will be immediately notified by a service telegram of the failure to collect and of the amount of the charges.

RULE 52.

Non-delivery of cablegrams.

If the address to a received cablegram is not known, ask the other Company if they have it registered, also try possible owners; but do not neglect to first notify the Cable Company.

Telegrams not to be delivered to unauthorized persons.

A telegram must not be left with a janitor, porter or an elevator man of a building for delivery by him, nor be shipped under a door, nor left in a letter-box, unless the addressee has filed with the Agent a written request for such delivery, nor will a messenger allow any unauthorized person to know to whom the telegram is addressed.

RULE 53.

Messengers to obtain receipts

A messenger will obtain a receipt on the proper form for each telegram delivered, which receipt will include the name of the person to whom delivery is made and the time of delivery. A messenger will in no case receipt for an addressee.

RULE 54.

Notice to addressee of undelivered telegram.

When a telegram cannot be delivered because the addressee's place of business or residence is closed, or because no authorized person can be found to receive the telegram the messenger will leave a notice (Form 17) at the place of address, to the effect that a telegram for the addressee is at the office of the Company awaiting delivery. The undelivered telegram will then be returned to the office, with a reason of non-delivery endorsed upon the envelope, and will be delivered thereafter as early as possible.

Service messages reporting the non-delivery of telegrams addressed to business houses that are closed for the day are unnecessary.

DELIVERY DEPARTMENT

319

RULE 55.

When a telegram cannot be delivered because of wrong or inadequate address, or because the addressee is not known, or for any other reason, a record of the facts will be made upon the envelope of the undelivered telegram, and the sending office will be promptly notified by telegraph of the non-delivery; the service telegram giving such notice will contain the date, address and signature of the telegram as received, and the reason for the failure to deliver. On receipt of such notice the sending office will compare addresses, and will correct by telegraph any error that may be found. If no error appear, notice will be given to the sender of the telegram, who, if he desire to change the address, must either send a new telegram or pay for the service telegram necessary to change the address of the original. When notice is given to the sender of a telegram of its non-delivery, the original service message MUST NOT be sent to or given to the sender of the telegram.

Code addresses on land-line, or domestic telegrams are insufficient, and, therefore, will not be accepted.

The use of code addresses on the lines of this company must be confined wholly to *cablegrams*.

In the event that any domestic telegram, bearing a code address, is inadvertently transmitted over the lines of this company, the office at destination will report to the originating office that such telegram is "Undelivered, address unknown," and the originating office will notify the sender accordingly. (See Rule 2).

When an originating office learns that a message has been sent by error of the telegraph company to a wrong destination it will at once forward the message to the proper address as a NEW MESSAGE, and notify the office to which it has been improperly sent to file it.

The originating office will enter in receipts the tolls on both messages and take credit for the tolls on the first message in R. & U. account, with proper explanation and original message attached.

An office reporting non-delivery of a message will file the message and check the originating office.

A telegram which has from any cause failed of delivery will be filed with other business; it will not be destroyed because of that or other reason, nor will a request to that effect be complied with.

A telegram blank, upon which a received telegram has been written, in whole or in part, must not be destroyed under any circumstances. When a telegram is to be cancelled, the word "cancel" with the reason and the operator's signal, should be written across the face of the blank, which should then be placed on a sent business file. The operator, who cancels a telegram, must see that the number is filled in.

NOTE.—A reply to a service message must in all cases be addressed to the person from whom the message is received.

The failure to observe this manner of correspondence may cause serious delay and annoyance.

EXAMPLE.—If an office receives a service message from Montreal signed "S," the reply to such service message must be addressed to "S," Montreal.

DELIVERY DEPARTMENT.

The following will show the correct and incorrect form of service message. The use of the correct form of a service message will eliminate a considerable number of unnecessary words used in the incorrect form.

RULE 56

If an Agent believes that an error has been made in the transmission of a telegram to his office, and the correction cannot be quickly made, he will deliver the telegram with the words "*Delivered subject to correction*" endorsed thereon. He will then take immediate steps to secure a correct copy, which will be endorsed "*Corrected Copy*," and will be promptly delivered. If no error be found, a notice to that effect will be delivered.

RULE 57

If the addressee of a collect telegram refuse to pay for the same the telegram will, nevertheless, be tendered to him, and notice of the failure to collect will be at once given to the sending office by service telegram and by mail, in order that tolls may be obtained from the sender of the telegram.

RULE 58.

A night telegram or night lettergram will not, unless called for, be delivered until morning, but, if called for, it may be delivered upon payment of full day rate in the case of a "collect" telegram and the difference between the night and day rates or night lettergram and day rates, in the case of a "paid," telegram. The additional amount collected will be accounted for as "*Sundry Receipts*."

RULE 59.

When an insured telegram is received at an office, from which it is to be delivered, it will be the duty of the Agent, or of the person in charge, to satisfy himself that prompt and correct delivery is made.

RULE 60.

The Agent or delivery clerk will examine the delivery sheets or books of messengers on their return from each service, and at the close of the day to see that faithful delivery has been made, and that all proper notifications have been given.

ACCOUNTS, REPORTS AND REMITTANCES

RULE 66.

Checks not to be changed.

Telegrams sent prepaid not collected.

A paid or collect telegram will be entered as originally checked and transmitted.

When, for any reason, it is desired to collect tolls at destination, on a telegram sent checked prepaid, the originating office may, by mail, request destination to collect and account for tolls in guaranteed statement and to advise by mail, whether such collection is made (*the wires must not be used for this purpose, as such requests by wire will be treated as prepaid telegrams*).

To obtain credit for such items, originating office will attach to T. D. 1015 such request and answer.

RULE 67.

Check ledger entries.

After the entry of a day's telegrams on Form 22, the record will be transferred to Form 1005.

RULE 68.

Record of cablegrams.

Daily records of cablegrams will be kept on Form 23; but separate from other business. These records will form part of the monthly cable reports.

The total amount received for cablegrams will be entered on Form 15, opposite "Cable Receipts."

Cable reports (T. D. Form 60, 61 and 62).

T. D. Forms 60 and 61 must include all business done during the period, and must be forwarded to the Auditor of Telegraph Receipts on the first day after the close of each period. The month will be divided into four periods, as follows: 1st to 7th, 8th to 14th, 15th to 21st, 22nd to last day of month.

T. D. Form 62 showing totals as per the four weekly reports must be sent with monthly statement (T. D. Form 15), on which debit is taken for the total amount of tolls.

When no business is done, reports must be sent in with the word "Nil" written on face.

Separate reports must be made for cablegrams sent and received by Commercial Cable Co., New York Havana, British Pacific Cable, Commercial Pacific Cable Co., French Cable Co., United States & Hayti and Bermuda Cable Co., via Galveston, Tex., and for Newfoundland.

A separate report will also be required for cablegrams destined to Germany, Austria and Holland.

A separate report must be made of Deferred Cable Traffic. In all cases where the tolls on a deferred cablegram involve the half cent, an additional half cent must be added to make the accounting uniform at all offices.

RULE 69.

Uncollect and guaranteed telegrams.

Before filing away the day's business the undermentioned telegrams will be taken out and held to be sent in with the monthly reports.

Copies of telegrams "received collect," for which payment has not been obtained, together with the telegraphic notices relating thereto, required by Rule 57.

The original telegrams "sent collect" which have been reported by delivery offices as uncollectible.

The uncollected telegrams referred to above will be listed on Form 1015 and the guaranteed telegrams on Form 1016.

A slip, giving reference, must be filed with the day's business for each telegram kept out.

RULE 70.

All telegrams not required for other purposes (See Rule 69) will ^{be} filed in the order in which they appear on Form 22, and properly telegrams labelled by days and months. Each month's telegrams will be retained for a period of six months, at the end of which time, unless otherwise ordered, they will be destroyed, or mutilated in such a manner that it will be impossible for any person to read them.

Through telegrams will be filed in alphabetical order according to destination.

RULE 71.

Immediately after the close of the month office will make out Monthly reports on Forms 15, 22a, 62 and 1026, which must be signed by reports the Agent personally.

The above named reports, with their enclosures, will be sent to the Auditor of Telegraph Receipts not later than the second day after the close of the month (See note at the foot of T. D. Form 15.)

A copy of T. D. 15 must also be sent to the Telegraph Superintendent of the Division. This copy must show, in addition to the data required by the Auditor, the number of cablegrams sent during the month.

All reports must be made in ink and copies retained in office

RULE 72

The amount entered in column D. on Form 15 will be made up Paid "other of the amount paid to the "other lines" and the amount paid for lines." "special delivery" and the "other line" tolls on the forwarded telegrams. The total of the amounts in this column will be entered opposite the item "Other Lines Col. D." A detailed record of such business will be made on Form 1026.

RULE 73

On Form 15, opposite the item "Guaranteed Messages," will be entered the amount received for the payment of telegrams which guaranteed other offices have reported "uncollectible," as per Form 1016. The original of such telegrams, with service notifications attached, will be sent in with the report; and upon those for which no tolls have been collected will be endorsed the reason why no collection has been made.

RULE 74.

The amount opposite the item "Uncollected Messages" on Form 15 will be made up of tolls on uncollectible telegrams as per Form 1016. ^{Refunded} ^{uncollectible.}

Forwarded "received collect" telegrams are not "uncollectible." To obtain credit on them, see Rule 75.

All the telegrams included under the head of "Refunded and Uncollectible" will be sent in with the report as vouchers for the unpaid tolls. Each uncollected telegram will be accompanied by the service telegram referred to in Rule 57.

When a refund is made, receipt must be taken, to which will be attached all correspondence in the case and the order to refund. Refund. When there are numerous a list should be made and total transferred to Form 15.

ACCOUNTS, REPORTS AND REMITTANCES.

RULE 75.

RULE 79.

1st. On receiving this Error Sheet carefully examine your records and files and if no errors are found in your report of business with C.P. offices, with offices on this Company's system, make out a statement on T. D. Form 440 and send to each office with which you differ. If office with which you differ is off the line of Railway place a one cent stamp on upper right hand corner of the Error Card and send by post office mail.

ACCOUNTS, REPORTS AND REMITTANCES.

2nd. When an answer is not received promptly, send a duplicate marked "Second Request" and if no answer is received to same within two weeks forward a third copy to Auditor of Telegraph Receipts, giving dates original and duplicate were sent to such offices.

3rd. Managers receiving request on T. D. Form 440 will at once examine their records and forward, as requested, full details of differences on dates they occur.

RULE 80.

4th. When any differences on Error Sheet are with offices on lines of Postal "P.", Canadian Northern, "C.N.", Canada Atlantic "C. A." or with North American, "N." T. D. Form 440 should be filled in, and forwarded to Auditor of Telegraph Receipts.

5th. If you discover you are responsible for the whole or part of an Error Sheet, take debit for the amount in your first monthly statement (T. D. Form 15) showing number of error sheet and attaching card T. D. Form 440 and all papers.

6th. Explanations must definitely locate errors and card T. D. Form 440 with all papers must be sent to the Auditor of Telegraph Receipts within two months of the date of Error Sheet.

7th. Retain this Error Sheet. Make your record complete, and when all items are cleared file same carefully away.

RULE 81.

Remittances.

Cash received must be remitted promptly to the Treasurer. Remittances must be made either by express or through the mail in the form of a draft on Montreal, or registered letter; and must be accompanied by remittance slip, giving details of remittance.

Credits.

a.—On the first day of January, each year, agents will send to their Superintendent of Telegraphs a list of those business firms and others to whom they grant credit for payment of telegraph accounts, in order that authority for such credits may be obtained from the Vice-President, Finance and Accounting.

b.—Such lists to show the name of firm or individual, business or occupation, length of credit and reason for granting credit.

c.—Whenever it is desired for any cause to open an account for a customer, agents will make application to their Superintendent of Telegraphs, and, if approved by the Vice-President, Finance and Accounting, they will be duly advised by the Auditor of Agencies.

d.—Immediate notice of the cancellation of any credit must be sent to the Superintendent.

e.—Unless specially authorized, no credit will be extended beyond a month. All accounts must be rendered and paid promptly at the close of each month, and if any account is not paid by the end of the following month, credit is to be discontinued.

f.—Agents are cautioned to curtail credits as much as possible, and not to recommend a credit unless unavoidable.

MISCELLANEOUS

RULE 82.

Each Agent will exercise jurisdiction over the property, employees and business of his office; and, unless otherwise ordered, such jurisdiction will extend to branch offices, if any, in the same city or town.

The display in windows or on the walls of the Company's offices of advertising matter of any kind other than advertisements of this Company, is prohibited, excepting that a sufficient number of legible calendars may be hung in suitable positions for convenient reference by patrons.

A competent person to receive messages must be in attendance from 8 a.m. to 8 p.m. on all week days. Hours of duty on Sunday for the smaller offices are 9.00 a.m. to 10.30 a.m., 5.00 to 6.00 p.m. For holidays (when authorized by the Superintendent) hours will be the same as for Sunday. Larger offices will regulate additional hours of duty to suit the requirements of the business.

All way offices must call up terminal offices on Sundays or holidays for instructions.

RULE 83.

Each Agent will be held to a strict accountability for the property of the Company in his possession or under his control; and he will hold employees under his direction responsible for the careful use and preservation of such property.

Agents or operators must not alter, in any way, the arrangement of the wires, instruments or fixtures at their offices without special permission from the Superintendent or Inspector.

Oil cloth must not be used to cover operating tables.

No article belonging to the Company will be sold or transferred without authority from the Superintendent.

RULE 84.

No expenditure for office fittings, alterations, furniture supplies or any other purpose will be made without authority from the Superintendent.

RULE 85

Old copper, zinc and other old or surplus materials of value must be carefully preserved, and at regular intervals returned to Stores Department, Angus Shops, Winnipeg or Vancouver on May 1st, and Nov. 1st. of each year. At offices to and from which there is no free service for supplies, the old material will be collected by the repairers and sent to the Supply Department by them in bulk.

Advise the Telegraph Superintendent of quantity shipped.

RULE 86.

Instruments,
etc., sent to
Supply Dept.

Old instruments must be returned immediately on receipt of new ones.

When old instruments and other articles are sent to the Supply Department, they must be accompanied by a letter from the Agent, stating from what office they are sent. A letter must also be sent to the Superintendent's office, stating quantity, etc.

RULE 87.

Requisitions.

Requisitions for supplies will be made once in three months for each office having over fifteen cells of battery, and once in six months for other offices. Such requisitions will be forwarded at least one month before the beginning of the period for which the supplies are needed.

All requisitions for instruments, battery material, etc., to be sent to the Telegraph Superintendent in time to reach his office not later than the 15th of any month. Requisitions received later will be held over until the following month. Whenever possible old material should be delivered to the supply car in exchange, and the Telegraph Superintendent advised.

No interim requisition will be allowed, except in cases of fire or accident, unless accompanied by a satisfactory explanation.

RULE 88

No admittance
to operating
room, etc.

A manager will refuse to admit to the operating room and private offices of the company any person not an employee under his own direction, except when permission to enter has been given by a Superintendent or other officer of the Company.

RULE 89

Privacy of
telegrams and
records.

Messages, books, press reports and other papers of the Company, will be guarded with the greatest care and held in the strictest privacy. Employees are expressly forbidden to disclose any information in regard to the contents of a telegram, or the name of the sender or addressee thereof.

Managers will warn all messengers, operators and other employees entering the service of this Company that, UNDER THE LAW, TELEGRAMS ARE SECRET, AND THE SERVICE MUST BE PERFORMED IN GOOD FAITH.

The wilful disclosure or change of the contents of any telegram or letter, or the wilful destruction or delay of any telegram, letter or package is a VIOLATION OF THE LAW—a penal offence, punishable by imprisonment and heavy fine.

Therefore, telegraph employees must BEAR IN MIND THE REQUIREMENTS OF THE LAW, and the rules and regulations of the Company.

Attention is called to the following circular which is still in force:—

(Circular.)

CANADIAN PACIFIC RAILWAY COMPANY

OFFICE OF THE VICE-PRESIDENT.

MONTREAL, Oct. 14th, 1886.

The Company having undertaken the transmission of telegrams for the public over its wires, it is of the highest importance that this service be performed in a thoroughly efficient manner, and the most careful attention to this business is enjoined upon every one connected with the telegraph service. Celerity in transmission and delivery, accuracy and privacy are of the first importance, and no shortcomings in these particulars will be tolerated.

It must be remembered that no person, not excepting the highest officer of the Company, has the right to know the contents of any private telegrams entrusted to the Company for transmission. The greatest care must be taken to prevent private telegrams from being seen by persons for whom they are not intended and any employee of the Company divulging the contents of such a telegram will be punished by immediate dismissal.

General Superintendents are requested to co-operate with the Manager of the Company's Telegraph in every possible way to secure the desired efficiency, and to see that all persons connected with the telegraph service on their respective divisions fully carry out his instructions concerning commercial telegraph business.

(Signed)

W. C. VAN HORNE

Vice-President.

RULE 90

The printed forms of the Company will be used only for the Forms to be purposes for which they are designed. Under no circumstances used only for will forms for received telegrams or telegram envelopes be given purposes to the public, except in the usual delivery of telegrams.

RULE 91

If an Agent vacates his office before the close of the month, he Change of will make up his account to date, and will pay over to his suc- Agents. cessor all funds in his possession. The retiring Agent will send to his Superintendent a report of such settlement, with the receipt of his successor for money paid and property delivered.

RULE 93

When the sender or addressee of a telegram applies for a Applications copy of such telegram, he may, if known or properly identified, for copies of be allowed to see the telegram and make a copy thereof; but under telegrams. no circumstances will a received telegram form or telegram envelope be furnished him.

Employees will not certify to the correctness of any telegram or copy thereof, nor furnish a copy, except as per rule 93, nor will they show any telegram to any person other than the sender or addressee thereof, except by authority from an Executive Officer of the Company.

RULE 93.

Corrections of errors.

If, after the delivery of a telegram, the addressee claims that an error has been made by the Company and the error be not apparent to the Agent, the Agent may, by service telegram to the sending office (which telegram must be paid for), ask for a duplicate and if an error be thereby disclosed, a copy endorsed "Corrected Copy" will be delivered, and the tolls paid for the service telegram refunded. If no error be disclosed, a notice to that effect will be delivered.

RULE 94.

Refunds and satisfaction of faulty service.

Whenever satisfactory evidence is furnished to an Agent that a telegram has failed to accomplish its object by reason of imperfect service on the part of the Company he may refund to the sender the tolls paid for the telegram. The receipt given for the refunded tolls, together with the telegram and an explanatory memorandum, will be sent in with the report on Form 1016.

In case of an error or other unsatisfactory service which may be corrected by the sending of a telegram without charge to the injured customer, office managers may, in their discretion, send such telegram, checking it as prepaid instead of free, returning it in R. & U. account with full explanation of facts.

NOTE.—Employees must not tell the addressee of a message that a word questioned by him is correct nor that "it came that way," nor that it agrees with the relay office copy. Hold the message, and if not changed by the relay office, obtain repetition of the doubtful word from the original at office of origin. Relay office employees replying to requests from small offices for repetitions, should add "If your copy reads same, obtain repetition from originating station."

RULE 95.

Complaints.

Upon receipt of a complaint, which cannot be satisfied under Rule 94, the Agent will promptly forward it to his Superintendent with a clear statement of the case. If the complaint be founded upon a telegram, the original telegram or copy as delivered will be forwarded with the statement.

Employees will not furnish information relating to complaints under investigation, except under instructions from a Superintendent or other officer of the Company.

Patient and courteous attention will be given to any person complaining of the service.

NOTE.—In investigation of complaints by mail, an inquiry for report of delivery service should be answered by statement of date and time telegram was sent out, name and number of messenger, time and place of delivery and copy of signature. If the name signed is not that of the addressee, the manager should state whether the delivery was correct.

Delivery sheet should be asked where there is a claim, or one anticipated, but not ordinarily on a complaint. Whenever a delivery sheet is taken from the files, a memorandum where it is to be found should be inserted.

RULE 96.

Immediately upon the service of any summons or other legal process of any legal proceedings affecting the Company, the employee upon whom such service is made will report the fact by telegraph to his Superintendent, stating briefly the nature of the process, and the day and hour when it was served. He will then forward to his Superintendent, by first mail, a copy of the paper of process so served, with a statement of such facts relating to the matter as are within his knowledge. The original papers will be retained, subject to instructions. Summons and other legal process.

RULE 97.

Whenever an Agent or other employee is subpoenaed on the part of the sender or addressee of a telegram to produce it before a court or other legal tribunal, he will comply with the subpoena, and afterward return the telegram to the files; but whenever an Agent or other employee is subpoenaed on the part of any person other than the sender or addressee to produce a telegram or testify in relation thereto before a court or other legal tribunal, he will take the telegram into the court, and then submit to the judge that he ought not to produce it or to testify in relation thereto, and that he cannot do so unless a rule or order of the court be entered requiring it, for the reason that telegraphic despatches are of a confidential nature, and that the communication is claimed to be privileged. If such order be made and entered, it will be obeyed, and the clerk of the court will then be requested to furnish a copy of the order, which, together with the subpoena, will be filed with the telegram to which it relates. Court orders for the production of telegrams.

NOTE.—A subpoena to be regular and valid, must describe the desired telegrams by such specific reference to the names, dates, or subject matter concerned, as will enable such telegrams to be readily found and identified in the files; but a subpoena which only calls in general terms for such telegrams as may be found after a search through the files (for example: "All telegrams passing between John Smith and Richard Brown between the first day of July and the fifth day of August, etc.") is irregular and unlawful, as being in the nature of a search-warrant, and not founded upon telegrams known to have existed.

It is the policy of the Company to contest subpoenas of this latter character, especially where the production of the telegrams concerned is likely to create public scandal or political excitement. On receipt of subpoenas of this class, Agents will bring the same to the attention of their Superintendent, stating particularly the language of that part of the subpoena which calls for the telegrams.

RULE 98.

Employees of the Company must rightly refrain from taking any active personal part in parliamentary elections, or other political matter, and must so conduct themselves that all persons will have the utmost confidence in doing their business by telegraph, and there shall be no just cause for suspicion or complaint in any respect against the Company. Parties.

MISCELLANEOUS

RULE 99

Correspondence.

Prompt attention must be given to correspondence from the officials of the Company, and especially to correspondence coming from the public.

RULE 100.

"25" telegrams.

All circulars and "25" telegrams containing instructions pertaining to the business must be carefully filed for reference.

RULE 101.

Blanks on cars.

Agents at divisional points on railway should see that Sleeping and Parlor cars are supplied with the Company's blanks, Form T. D. 2.

RULE 102.

Students.

No student shall be allowed in any of the offices of this Company without written permission from the Superintendent nor in case of permission having been given, shall any student be permitted to send or receive messages until fully competent to do so.
No student is permitted to practice on main lines.

RULE 103.

Certificates of service.

Hereafter Certificates of Service will only be issued when the Manager of the Telegraph Department considers it expedient to do so. All applications for these certificates must be sent to him through the Superintendent.

RULE 104

Time.

Attention is called to the fact that "TIME" is transmitted daily to every office on the C.P.R. system. It is sent in the following manner:—At 11.54 single beats are transmitted until 11.54-55, when the line remains open. At 11.55 exactly, double beats commence and continue until 11.55-56 when the line is again left open until exactly 11.56 when it is closed. All offices are cautioned against struggling with "TIME." It is useless doing so as no one can break.
